

Industry Association Input
Round 8

5/13/2008

Product Category	Industry Associations	Results
Air Fresheners & Deodorizers	United Soybean Board	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	International Fragrance Association	No response
	Fragrance Materials Association of the United States	No response
	Green Hotels Association	No response
Asphalt & Tar Removers	United Soybean Board	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	National Corn Growers Association	Referred to state Corn Growers Associations
	Michigan Corn Growers Association	Has not heard of any issues related to use of biobased products in this category
	Ohio Corn Growers Association	Not aware of any issues involving performance or environmental uses of biobased products; only experienced with corn-based plastics
	Asphalt Emulsion Manufacturers Association	Very successful using vegetable solvents for emulsion - especially in Europe; no knowledge of performance/environmental issues
	Colorado Asphalt Pavement Association	No input
Asphalt Restorers	The Asphalt Institute	No Results
	Asphalt Pavement Alliance	No Results
	National Asphalt Pavement Association	No Results
	National Corn Growers Association	No Results
	United Soybean Board Association	No Results
Blast Media	United Soybean Board Association	No Results
	National Corn Growers Association	No Results
	Abrasive Engineering Society	No Results
	Unified Abrasive Manufacturers Association	No Results
Candles and Wax Melts	United Soybean Board	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	National Corn Growers Association	Referred to state Corn Growers Associations
	Michigan Corn Growers Association	Has not heard of any issues related to use of biobased products in this category

	Ohio Corn Growers Association	Not aware of any issues involving performance or environmental uses of biobased products; only experienced with corn-based plastics
	Village Chandler	No response
	National Candle Association	No knowledge of performance or environmental issues
	American Floral Industry Association	No response
	International Guild of Candle Artisans	No input, referred to IGI and Candle Solutions
	Candle Solutions	Reports the "buzz" about cleaner burning biobased candles is not true. A new study shows no difference in emissions and soot burning.
	The International Group, Inc.	Sent a file about tests involving soot within candles. No known issues.
Electronic Components Cleaners	United Soybean Board Association	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	Semiconductor Industry Association	Referred to SEMI
	Association Connecting Electronics Industries	No response
	Institute of Electrical and Electronics Engineers	No response
Floor Coverings (Non-Carpet)	Carpet and Rug Institute	No Results
	National Corn Growers Association	No Results
	National Wood Flooring Association	A study was completed with the University of Wisconsin - Madison on the life cycle of solid wood flooring. Reference of the study is found at http://nwfa.org/uplfiles/whatsNew/Hubbard&BoweFinalCORRIMHardwoodFlooringLCReport08.pdf
	United Soybean Board Association	No Results
Foot Care Products	United Soybean Board Association	No Results
	National Corn Growers Association	No Results
	American Orthotic & Prosthetic Association	No Results
Furniture Cleaners and Protectors	United Soybean Board Association	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	National Corn Growers Association	Referred to state Corn Growers Associations
	Michigan Corn Growers Association	Has not heard of any issues related to use of biobased products in this category

	Ohio Corn Growers Association	Not aware of any issues involving performance or environmental uses of biobased products; only experienced with corn-based plastics
	Association of Specialists in Cleaning and Restoration	Their network ncludes no manufacturers who use biobased products in this item
Inks - Specialty	United Soybean Board Association	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	National Corn Growers Association	Referred to state Corn Growers Associations
	Ohio Corn Growers Association	Not aware of any issues involving performance or environmental uses of biobased products; only experienced with corn-based plastics
	Michigan Corn Growers Association	Has not heard of any issues related to use of biobased products in this category
	Specialty Graphic Imaging Association	No response
	Ink World Magazine	Everyone is pushing soy at this time; soy dries through absorption - has not heard of any 'issue' pertaining to performance/environment
	The National Association of Printing Ink Manufacturers	Response pending
	Association of Graphics Communication	No response
	Craft and Hobby Association	No response
Inks - News	United Sobyean Board Association	No Response
	National Corn Growers Association	No Response
	Newsprint Producers Association	No Results
	National Association of Printing Ink Manufacturers (NAPIM)	No Input
	Biobased Manufacturers Association	No Input
	Canadian Printing Ink Manufacturers' Association	No Input
Inks - Printer Toners	United Soybean Board	No response
	National Corn Growers Association	No response
	National Association of Printing Ink Ma	No input
	Printing Industries Association of Amer	No input
	National Association for Printing Leade	No response
Inks - Sheetfed	Canadian Printing Ink Manufacturers' Association	No response
	National Corn Growers Association	No response
	Pacific Printing and Imaging Association	No response
	United Soybean Board Association	No response

Packing and Insulating Materials	United Soybean Board Association	No knowledge of any issues related to any of the soy-based ingredients in Round 8
	North Dakota Soybean Council	No input
	Sustainable Packaging Coalition	No response
Pneumatic Equipment Lubricants	Canadian Association of Mining Equipment and Services for Export	No Results
	National Corn Growers Association	No Results
	United Soybean Board Association	No Results
Wood and Concrete Stains	American Concrete Pavement Association	No Results
	American Wood Protection Association	No Results
	National Corn Growers Association	No Results
	National Wood Flooring Association	Performance Effects: Time for stain to dry has increased due to replacing VOC's with other non-volatile materials (trend moved from petroleum based to soy based)
	United Soybean Board Association	No Results
