

Unique Product Features

Round 6

10/3/2008

Item	Company Name	Product Name	Product Unique Feature
Disposable Tableware	D3P3	D3P3-0016	Engineered using potato and tapioca starches with a few grass fibers they are biodegradable and earth friendly.
	D3P3	D3P3-0026	Engineered using potato and tapioca starches with a few grass fibers they are biodegradable and earth friendly.
	D3P3	D3P3-0027	Engineered using potato and tapioca starches with a few grass fibers they are biodegradable and earth friendly.
	D3P3	D3P3-0028	Engineered using potato and tapioca starches with a few grass fibers they are biodegradable and earth friendly.
	D3P3	D3P3-0030	
	DBEI	DBEI-0002	This product is biodegradable and compostable, and based upon sugar cane and reed pulp. They are harmless, odorless, and non-toxic, vegetable oil proof, water resistant and heat tolerant.
	DBEI	DBEI-0005	
	DBEI	DBEI-0006	The bowls are harmless, odorless, and non-toxic, vegetable oil proof, water resistant and heat tolerant.
	E2BZ	E2BZ-0001	Premium cold drink cups that are naturally based and fully compostable, made entirely from the renewable resources of Nebraska corn.
	H7W2	H7W2-0001	
	H7W2	H7W2-0002	
	H7W2	H7W2-0003	
	H7W2	H7W2-0005	
	H7W2	H7W2-0014	
	HC1A	HC1A-0001	100% biodegradable and compostable bowls made from sugar cane fiber.
	HC1A	HC1A-0002	100% biodegradable and compostable plate made from sugar cane fiber.
	HC1A	HC1A-0004	100% biodegradable and compostable serving trays made from sugar cane.
	HPZG	HPZG-0003	
	HPZG	HPZG-0004	
	IF3W	IF3W-0004	These plates are strong and rigid, ideal for holding lots of food.
	IF3W	IF3W-0006	The product material is nature based, derived from renewable resources like corn.
	K95M	K95M-0001	A compostable, non-toxic, food-safe plastic product made from U.S. grown corn.
	K95M	K95M-0002	
	K95M	K95M-0003	A compostable, non-toxic, food-safe plastic product made from U.S. grown corn.
	K95M	K95M-0004	A compostable, non-toxic, food-safe plastic product made from U.S. grown corn.
K95M	K95M-0005	A compostable, non-toxic, food-safe plastic product made from U.S. grown corn.	

M6TS	M6TS-0002	Most of our products are certified to be 100% compostable and fully compliant with the ASTM D6400-99 standard which assures that they leave no known residues in the ground or water supply.
MX3Z	MX3Z-0001	Made from corn grown in the USA, PLA is used to make clear plastic cups. Biodegradable, compostable and sustainable.
MX3Z	MX3Z-0002	Made from corn grown in the USA, PLA is used to make souffle cups. Biodegradable, compostable and sustainable.
MX3Z	MX3Z-0004	Paper cups made from plant fibers, either grown or recovered as crop residue. May be sugar cane, wheat bamboo or rice based pulps. Microwavable, ovenable and freezable, biodegradable, compostable and sustainable.
MX3Z	MX3Z-0005	Paper bowls made from plant fibers, either grown or recovered as crop residue. May be sugar cane, wheat bamboo or rice based pulps. Microwavable, ovenable and freezable, biodegradable, compostable and sustainable.
MX3Z	MX3Z-0007	Paper plates made from plant fibers, either grown or recovered as crop residue. May be sugar cane, wheat bamboo or rice based pulps. Microwavable, ovenable and freezable, biodegradable, compostable and sustainable.
MX3Z	MX3Z-0009	Paper plates, cups, trays, bowls, and boxes made from plant fibers, unbleached and either grown or recovered as crop residue. May be sugar cane, wheat bamboo or rice based pulps. Microwavable, ovenable and freezable, biodegradable, compostable and sustain
NN16	NN16-0001	Biodegradable products manufactured from renewable resources
NN16	NN16-0002	Biodegradable products manufactured from renewable resources
NN16	NN16-0003	Biodegradable products manufactured from renewable resources
NN16	NN16-0005	Biodegradable products manufactured from renewable resources
NN16	NN16-0007	Biodegradable products manufactured from renewable resources
NN16	NN16-0009	Biodegradable products manufactured from renewable resources
OLX2	OLX2-0001	100% Bio Based made from annual renewable resources.
OLX2	OLX2-0009	Made from a GMO free renewable resource.
OLX2	OLX2-0011	One substrate made from annual renewable resources.
OLX2	OLX2-0013	This product is made from a renewable resource grown right here in the U.S.
OLX2	OLX2-0017	The hot cup lid is 100% biodegradable made from renewable resources, potato starch
PXO9	PXO9-0001	Made of annually renewable resources found in large quantity worldwide, reducing the need of dependency on foreign oil.
PXO9	PXO9-0005	100% Compostable
S96L	S96L-0008	This cup holds hot or cold liquid up to 400ml (12-13 oz)
S96L	S96L-0010	Biodegradable straws a great food service item.
S96L	S96L-0021	This plate has compartments to separate food.
S96L	S96L-0022	This tray has five separate compartments to separate food.
S96L	S96L-0023	Biodegradable, fiber product
S96L	S96L-0025	Holds 3 oz. of cold liquid
S96L	S96L-0028	The plate is nine inches in diameter

	S9I7	S9I7-0008	These cups are made from a readily renewable resource: sugar cane stalk. This resource grows rapidly and is easy to manage, making the supply-side of these bowls easy on nature. The durability and attractive look of the cups make these eas
	S9I7	S9I7-0010	These bowls with lids are made from a readily renewable resource - it's sugar cane stalk. This resource grows rapidly and is easy to manage, making the supply-side of these bowls easy on nature. The durability and attractive look of the bowls makes it look better.
	S9I7	S9I7-0012	These straws are made with 100% biodegradable resins, consisting of renewable resources. So enhance those to-go cups or reusable mugs with these compostable and biodegradable straws. Corn and potato starch are the most frequently used components of biodegradable resins.
	UU3U	UU3U-0006	Heat resistant to 212 degrees f, completely compostable, reusable and dishwasher safe.
	V865	V865-0018	FDA approved, they are the most environmentally friendly cups on the market and make excellent paper hot cups.
	V865	V865-0019	To dispose of them, toss them in a compost bin and watch them become fresh fertilizer in as little as 45 days.
	V865	V865-0022	These premium strength plates can be disposed of in compost bins and are priced better than their paper counterparts.
	V865	V865-0023	Our research has indicated that these are the only biodegradable and compostable soup containers available anywhere in the world that will withstand hot liquids.
	XPR6	XPR6-0006	A durable, versatile, moldable material from pure starches or grain meals in a simple extrusion process. One of the unique (and patented) features of this process is the use of an annular rotar
	XPR6	XPR6-0007	A durable, versatile, moldable material from pure starches or grain meals in a simple extrusion process. One of the unique (and patented) features of this process is the use of an annular rotar
	XPR6	XPR6-0008	A durable, versatile, moldable material from pure starches or grain meals in a simple extrusion process. One of the unique (and patented) features of this process is the use of an annular rotar.
	XWK4	XWK4-0001	
Expanded Polystyrene (EPS) Foam Recycling Products	SEQ6	SEQ6-0009	It will remove over 600 times its volume or 3 plus cubic yards of foam per gallon of solution. It is cost effective. It is made from materials which are totally non-toxic and will not harm the environment.
	X3E5	X3E5-0010	It will remove over 600 times its volume or 3 plus cubic yards of foam per gallon of solution. It is cost effective. It is made from materials which are totally non-toxic and will not harm the environment.
	IOB1	IOB1-0001	Made with a blend of natural ingredients and biodegradable ingredients.
Heat Transfer Fluids	QR6P	QR6P-0001	Only antifreeze made of 1,3 propanediol
	X45L	X45L-0001	Uses non-toxic glycerin from renewable sources Contains no EG or PG Non-hazardous shipping classification.
	M2U2	M2U2-0009	96% Propylene Glycol
	VHIC	VHIC-0002	Even at temperatures below -112°C (-170°F), the fluid remains pumpable. This product allows for cost-effective retrofits with minimal equipment modifications.

	VHIC	VHIC-0003	99% biobased. Heat transfer fluid derived from corn.
	R1LM	R1LM-0001	Our unique cooling vest carries heat away from your body, helps you keep a clear head and fight the symptoms of heat stress.
Ink Removers and Cleaners	B9D5	B9D5-0004	
	WH7E	WH7E-0001	Manufactured utilizing between 30% and 97% renewable resources and are extremely effective on cold set, heat set, and energy curable inks. By changing our ways slightly, our industry can eliminate millions of gallons
	B961	B961-0002	
	B961	B961-0001	
	Y8EG	Y8EG-0023	
	Y8EG	Y8EG-0001	
	Y8EG	Y8EG-0011	Allows for greater control of where you put the product so it won't interfere with your tape if you don't want it to.
	Y8EG	Y8EG-0016	
	Y8EG	Y8EG-0019	This revolutionary product is in response to an increasing number of requests from screen printers to develop a product that can remove ink and emulsion in one simple, effective step.
	Y8EG	Y8EG-0014	Stays in place as it breaks down emulsions.
	Y8EG	Y8EG-0015	This non-evaporative cleaner is great for recycling and/or wash tanks. Ink removal is clean and simple.
	A3N2	A3N2-0003	A soy based ink remover that is wax free.
	WP11	WP11-0004	
	WP11	WP11-0001	
	H4RZ	H4RZ-0001	This gentle formula cleans and polishes without streaking, and leaves a protective layer.
J4FB	J4FB-0008	Made from soy and quickly dissolves hardened and dried ink. It has no hazardous air pollutants, is non flammable and safe to use on quick copy paper plates.	
W64A	W64A-0002	Made from lactate esters and methyl soyate. It has higher performance and versatility as well as excellent safety and environmental records.	
Mulch and Compost Materials	X2J2	X2J2-0001	A compost with a proven track record of performance. Produced utilizing a combination of several feedstocks, including brewer's yeast, wood wastes of various types, biosolids, and at times, treatment plant residuals. Meets EPA 40 CFR 503-13 requirements.
	X2J2	X2J2-0002	An excellent compost, produced using feedstocks of primarily limb waste, food waste, leaves, grass, and beer. This fine textured product is low in salts and contains some woody particles.
	X2J2	X2J2-0003	This fine-textured material, which is excellent for top dressing applications, is engineered from our compost, which has been refined using a 1/4" screening process.
	X2J2	X2J2-0004	Horticultural, Nursery, Container Mixes, Turf, Sod, Seed Bed Preparation, Raised Garden, Vegetable Gardens, Top Soil Blends, Backfill, Erosion Control. Watering to leach excess salts not required. Can be applied at high volume.
	X2J2	X2J2-0005	This product has a fine texture and particle size.
	X2J2	X2J2-0006	Compost produced from manure provided by animals of the Denver Zoo.

X2J2	X2J2-0007	Can be used for Turf, Sod, Seed Bed Preparation, Raised Garden, Vegetable Gardens, Top Soil Blends, Backfill, Erosion Control.
T5F9	T5F9-0001	Our compost (from farm waste)) is sold from a network of farms throughout the northeastern U.S. In general, compost made on farms is quite variable from one farm to the next. The ratio of bedding to farm manure causes significant differences in organism.
I657	I657-0001	Biodegradable
I657	I657-0002	Available for delivery and pickup. Biodegradable.
I657	I657-0003	Available for delivery and pickup
I657	I657-0004	Available for delivery and pickup
I657	I657-0005	Available for delivery and pickup Biodegradable.
B6YO	B6YO-0001	This compost is not made from ground up mushrooms as you might think. It's the soil used to grow mushrooms. Since mushrooms are such a delicate crop, the soil is used only once. Then we compost and bag it for home gardeners.
IXE5	IXE5-0001	Pacific Northwest recycled brush, branches, leaves, grass clippings, produce trimmings, and small amount of wood waste.
TR8G	TR8G-0001	
T37S	T37S-0002	Our Compost, when blended with existing soil or used on it's own, returns depleted soil to its productive roots by: Improves soil structure, increases water infiltration and water holding capacity, increases soil aeration.
RX8H	RX8H-0001	This compost is made from composted crab, lobster and aspen bark. The crab and lobster shells are a rich source of calcium and chitin, the aspen bark a source of tannins and lignins. It's a blend that's perfect for your vegetable garden.
T38O	T38O-0002	Our compost has not just met but set the standards for premium compost. Made from stall bedding and converted, using microbial activity into premium compost, it's the best way to put life into the ground.
GN0U	GN0U-0001	
GN0U	GN0U-0002	An all natural and organic material
GN0U	GN0U-0003	
GN0U	GN0U-0004	
GN0U	GN0U-0005	a finely screened blend of our dark sandy loam soil and our organic compost.
GN0U	GN0U-0006	
YMV6	YMV6-0001	Eliminates weeds Increases soil temperature and allows rapid root growth Prevents erosion from water Fruits and vegetables are not directly on the ground so the crop is clean and there are less plant diseases.
G52R	G52R-0001	It contains no animal manures, sludge or industrial wastes (which other bagged composts may contain).
XVF4	XVF4-0001	It is pH-balanced, free of weed seeds, and reduces and eventually eliminates the need for synthetic fertilizer.
HQ50	HQ50-0001	Whole Cypress logs ground up.
HQ50	HQ50-0002	Smells great.
HQ50	HQ50-0003	Great soil conditioner, fertilizer and mulch all in one blend.
HQ50	HQ50-0004	Our best selling mulch

HQ50	HQ50-0005	Safest and most durable choice for play areas and under swing sets.
HQ50	HQ50-0006	Lasts up to two years.
HQ50	HQ50-0007	almost black in color
HQ50	HQ50-0008	twice shredded
HQ50	HQ50-0009	good substitute for cypress
HQ50	HQ50-0010	great for pathways.
HQ50	HQ50-0011	good when you need clean chips
HQ50	HQ50-0012	Available in aged or fresh.
HQ50	HQ50-0013	ground twice for extra cushion;
HQ50	HQ50-0014	Lasts longer, slow decomposition.
HQ50	HQ50-0015	Sterilized horse manure, sphagnum peat, lime and gypsum.
HQ50	HQ50-0016	Could have larger material mixed in.
HQ50	HQ50-0017	Lasts up to two years.
HQ50	HQ50-0018	Can last up to two years.
ME74	ME74-0021	Rich in micro-nutrients.
ME74	ME74-0022	Adds nutrients and structure to planting mixes.
ME74	ME74-0023	Use as a topdressing or mix into the soil at up to 150 lbs/1000 sq ft.
ME74	ME74-0024	A great boost for transplants, potted plants and garden soils.
V6C4	V6C4-0001	Mother Natures finest fertilizer will bring all nutrients available to your plants.
V6C4	V6C4-0002	Bring soil to life with active microbes, and minerals
QT8K	QT8K-0002	Our Mulch consists of the same high-quality materials as the hardwood mulch, but it have been specially dyed with environmentally friendly colorings to provide a vibrant, long lasting appearance.
QT8K	QT8K-0003	Our Mulch is made of all natural cedar bark blends. This mulch is finely shredded and has a beautiful golden brown color.
QT8K	QT8K-0005	Provides rich organic material for soil amendment Contains beneficial soil bacteria and fungi for natural plant health Enhances pH stability and nutrient availability.
QT8K	QT8K-0006	A superior blend of nutrient-rich organic compost and finely screened mineral soil. This horticultural-grade topsoil promotes healthy vigorous plant growth and improves soil structure and aeration.
QT8K	QT8K-0007	Used for the establishment of container plants, annuals, perennials, bulbs, shrubs and trees.
QT8K	QT8K-0008	Our Mulch consists of a blend of premium barks from a variety of hardwood trees. This finely shredded mulch is a rich chocolate color.
QT8K	QT8K-0009	Provides a 100% organic, high-nutrient soil conditioner that is essential in maintaining healthy soil.
B9EU	B9EU-0001	This product is bagged.
B9EU	B9EU-0002	Bulk mulches for lanscape
B9EU	B9EU-0003	This product is bagged
B9EU	B9EU-0004	Bulk mulches for lanscape
B9EU	B9EU-0005	This product is bagged.

B9EU	B9EU-0006	This product is bagged.
B9EU	B9EU-0007	Bulk mulches for lanscape
B9EU	B9EU-0008	This product is bagged.
B9EU	B9EU-0009	This product is bagged
B9EU	B9EU-0010	This product is bagged
B9EU	B9EU-0011	This product is bagged
B9EU	B9EU-0012	This product is bagged
B9EU	B9EU-0013	This product is bagged.
B9EU	B9EU-0014	2 cubic foot gardening and lanscpape mulches. This product is bagged.
B9EU	B9EU-0015	This product is bagged
B9EU	B9EU-0016	This product is bagged.
B9EU	B9EU-0017	This product is bagged.
B9EU	B9EU-0018	Bulk mulches for lanscape
NU9A	NU9A-0003	Our Mulch Tree Rings are made from coco fiber which looks just like bark mulch, let's water through, yet retains moisture and blocks out weeds.
PDW2	PDW2-0001	However you use this product, you will quickly note the improved plant vigor that only compost can provide. Use it as a soil amendment, mulch or potting soil. You simply can't go wrong when it comes to applying it. Unlike unfinished compost, which can "tie up" nutrients until it finishes decomposing, keeping them from plants, high-quality finished compost like ours adds nutrients and humus.
IBRG	IBRG-0001	Encourages vigorous plant growth Retains moisture
IBRG	IBRG-0002	
IBRG	IBRG-0003	is the mildest of manures and is suitable for all flowers, vegetables, rose gardens and trees.
IN71	IN71-0001	Recycled yard waste
D54J	D54J-0001	Our Compost, when blended with existing soil or used on it's own, returns depleted soil to its productive roots by: Improves soil structure, increases water inofiltration and water holding capacity, increases soil aeration.
D54J	D54J-0002	
Z744	Z744-0003	By adding soil micro-organisms, it rebuilds the soil to give you faster and healthier revegetation. It also increases the water holding capacity of the mulch medium.
Z744	Z744-0004	Fast to load from easy to handle bales. Made in the USA and from recycled paper.
Z744	Z744-0005	Increased wetting agents allow for quicker mixing.
Z744	Z744-0006	The tackifier sticks the mulch to the topsoil and reduces erosion and water runoff immediately after hydro-seeding.
Z744	Z744-0010	our mulch has a 20% more loading capacity than wood mulch and is packaged in easy to handle bages. Each bag weighs 50lbs. Our mulch mixes quickly with water and flows smoothly allowing for uniform distribution, which creates even growth.
TC9V	TC9V-0001	Shredded outer layer of tree trunks, used for making lanscape mulch.
TC9V	TC9V-0002	Pieces of wood used for making lanscape mulch.

UA4Y	UA4Y-0001	By recycling and reusing organic materials, 20% of the waste previously dumped into Hawaii landfills is being put back into beneficial use for your gardening and landscaping needs.
VQ2C	VQ2C-0001	Analysis of cocoa shell mulch by the Auburn University Soil Testing Laboratory revealed it to be high in specific conductance, soluble salts, phosphorous, potassium and magnesium; but low in pH, nitrogen and calcium.
Y4SA	Y4SA-0001	Biodegradable
Y4SA	Y4SA-0002	Biodegradable
Y4SA	Y4SA-0003	Biodegradable
Y4SA	Y4SA-0004	Biodegradable. Shreds are very small.
Y4SA	Y4SA-0005	Biodegradable. Color is black.
Y4SA	Y4SA-0006	Biodegradable.
Y4SA	Y4SA-0007	Biodegradable
Y4SA	Y4SA-0008	Biodegradable
GQ5K	GQ5K-0004	These chips are very uniform in size and color.
GQ5K	GQ5K-0005	The mulch works great for landscaping, gardens and around shrubs.
RF95	RF95-0001	The courser material (3/4" top) is a great mulch. The finer material (3/8" bottom) is a super soil amendment, although it can also be used as a mulch.
S273	S273-0001	
S273	S273-0002	Brown in color
S273	S273-0003	
JFC2	JFC2-0001	Properly installed, this material is designed to attenuate a child's head shock from falls as high as 12 feet
JFC2	JFC2-0002	Available in palletized 2 cubic foot bags, Available in bulk by the cubic yard.
JFC2	JFC2-0003	A close knitting mulch that is also good for slopes and flat areas Naturally insect and decay resistant Retains moisture.
JFC2	JFC2-0004	A knitting mulch that makes good holding material for hillsides Processed to be coarser than double milled cypress.
JFC2	JFC2-0005	Works as a soil conditioner Limits weed resistance and makes weeding easier Decomposes more rapidly than coarse pine bark.
JFC2	JFC2-0006	A close knitting mulch that is also good for slopes and flat areas. Retains moisture.
JFC2	JFC2-0007	Available in bulk by the cubic yard
JFC2	JFC2-0008	A close knitting mulch that is also good for slopes and flat areas Naturally insect and decay resistant Retains moisture.
JFC2	JFC2-0009	Available in palletized 2 cubic foot bags
JFC2	JFC2-0010	A knitting mulch that forms a weed resistant, stay-in-place mat Decay and insect resistant For use in flower and plant beds as well as on slopes.
JFC2	JFC2-0011	Decay and insect resistant Not a projectile threat to glass windows.
JFC2	JFC2-0012	Not a projectile threat to glass windows, Available in palletized 2 cubic foot bags, Available in bulk by the cubic yard.

JFC2	JFC2-0013	A close knitting mulch that is also good for slopes and flat areas Naturally insect and decay resistant Retains moisture.
M7PP	M7PP-0001	"All-natural and organic ingredients, nothing chemical or artificial Contains long lasting redwood Loosens hard, clay soil All-natural and organic ingredients, nothing chemical or artificial Contains long lasting redwood Loosens hard, clay soil"
M7PP	M7PP-0002	"All-natural and organic ingredients, nothing chemical or artificial Contains long lasting redwood Loosens hard, clay soil All-natural and organic ingredients, nothing chemical or artificial Contains long lasting redwood, Loosens hard, clay soil."
O5VU	O5VU-0001	It can be colored for a greater variety of effects.
K2H9	K2H9-0001	Covers 50 SQ FT
K2H9	K2H9-0002	Traditionally our most popular.
K2H9	K2H9-0003	
K2H9	K2H9-0004	Recommended depth: 12"
K2H9	K2H9-0005	The high organic content makes this the ultimate choice for soil amendment in all planting situations. Unbelievable results and economical, too! Ideal for seeding and as an excellent, weed free seed cover.
K2H9	K2H9-0007	Breaks down to rich compost that will improve soil conditions over time.
K2H9	K2H9-0008	Unbelievable results and economical, too!
S864	S864-0001	All the benefits of mulch with added color.
S864	S864-0002	"Our composted manure is a fine textured compost product that is virtually weed free and odorless. Wood shaving based dairy manure is the raw product that we process on our licensed composting facility. This process is what kills weed seeds and pathogens to give you a very consistent, quality product."
S864	S864-0003	Great for use in planting beds to hold moisture in the soil.
S864	S864-0004	Will decompose over time, adding soil enhancing nutrients to your landscape
U1V8	U1V8-0001	Unlike fresh manures, this compost is a stable product which will not burn plants due to high ammonia content or cause overly vegetative growth as a result of an imbalance of phosphorus and potassium to nitrogen, found in many manures. Because it is also partially decomposed, it is not expected to take any nitrogen or oxygen from the soil to accomplish this as many fresh materials will do.
H4CQ	H4CQ-0001	Our products are second to none. Our professional potting mix and potting soils are superior growing mediums for all your indoor and outdoor containers.
H4CQ	H4CQ-0002	Our products are second to none. Our professional potting mix and potting soils are superior growing mediums for all your indoor and outdoor containers.
QY1P	QY1P-0001	Contains bark, wood chips, pine needles, composts or similar material.
QY1P	QY1P-0002	Contains bark, wood chips, pine needles, composts or similar material.
QY1P	QY1P-0003	The compost is usually steam pasteurized so all weed seeds, insects, or other pests that might be present are eliminated.
QY1P	QY1P-0004	Contains bark, wood chips, pine needles, composts or similar material.
QY1P	QY1P-0005	Contains bark, wood chips, pine needles, composts or similar material. Mulches also add to the beauty of the landscape by providing a cover of uniform colour and interesting texture to the surface.

K6LH	K6LH-0001	co-compost through windrow composting from the largest compost facility in the world, this Compost meets the Class A pathogen and Vector Attraction Reduction Requirements of the EPA's 40 CFR 503's. The finished compost is then readily marketed in bulk form to Agricultural Users, Landscapers, Nurseries, Bulk Yards, and to the General Public throughout California.
R5C8	R5C8-0001	Biodegradable and renewable.
QCPB	QCPB-0003	Clearly a unique compost that will enhance your vegetables, flowers and lawns.
GJ8V	GJ8V-0001	It has been specifically formulated for use as a premium soil additive or replacement.
GJ8V	GJ8V-0002	There is no need for any additional fertilizer or blending.
GJ8V	GJ8V-0003	Using our compost, peat, and perlite as ingredients, our Premium Potting Soil produces exceptional results.
TWOO	TWOO-0001	These improvements gave the facility the flexibility to produce compost a full 12 months a year, rain or shine, as well as providing a stable environment in which to meet end product quality assurance guidelines and to expand the facilities product lines.
P8CV	P8CV-0001	The United States Composting Council awarded our Compost Facility with the 2004 Composter of the Year Award.
T35U	T35U-0001	Is full of tannic acid, thus good for large shrubs and trees.
T35U	T35U-0002	Has a neutral PH factor thus, great for flowers.
T35U	T35U-0003	Has neutral PH factor thus good for flowers.
T35U	T35U-0004	Is full of tannic acid thus good for large shrubs and trees.
T35U	T35U-0005	We have/will invest in equipment to receive, manufacture and transport to customer specifications. Small business, rural Arkansas.
X3W1	X3W1-0002	100% bio degradable made from 100% recycled paper
A833	A833-0001	This is a natural chemical free product mainly used as top dressing over existing mulch.
A833	A833-0002	a natural chemical free product
A833	A833-0003	all natural chemical free product
A833	A833-0004	This is all natural/chemical free
A833	A833-0005	There are no hazardous chemicals in the product! Color Enhanced Mulch will hold its color for up to one year or more.

NK7L	NK7L-0001	Plants can be planted straight into it without the need to mix in other soil.
NK7L	NK7L-0002	Does not remove nitrogen from soil. Does not attract termites.
PF1S	PF1S-0001	
S4O8	S4O8-0001	Delivery available for truckload quantities
M3JJ	M3JJ-0008	Typically used at one fifth the rate of fresh chicken manure.
M3JJ	M3JJ-0010	Focusing on the microbial life in the soil, compost is produced with the objective of reversing the decline of soil life and re-establishing and maintaining the microbes necessary for efficient and healthy plant growth.
M3JJ	M3JJ-0011	Managed to produce high diversity and high quantity of microbes per gram of compost.
M3JJ	M3JJ-0012	5x's more potent than plain manure, but without weed seeds.
M3JJ	M3JJ-0052	Now, with special processing and packaging, this Compost can offer high quality of fresh-brewed compost tea.
M3JJ	M3JJ-0189	come back year after year to buy more and replenish their garden. Our Cocoa Mulch undergoes several cleansing processes which are all heat centrifuge based, in order to produce a quality, 100% fat free mulch. No other brand can make this claim. This results in a product that is less likely to attract rodents.
B682	B682-0047	
B682	B682-0048	Builds soil and feeds plants, too!
F1JD	F1JD-0001	Benefits are a reduction or elimination of chemical usage that can pollute ground water and it provides a great deterrent against soil erosion and compaction.
N00X	N00X-0002	this wood fiber absorbs water rapidly.
N00X	N00X-0003	Holds 13.5 times its own weight in water for superior seedling establishment.
N00X	N00X-0004	Our wood fiber delivers up to 50% more water-holding capacity than atmospherically refined wood mulches.
N00X	N00X-0006	Same quality wood and cellulose blend but with a pre-blended 3% polymer tackifier for a stronger bond and greater holding power.
N00X	N00X-0007	Now with a proprietary stimulant to ensure healthy growth even in harsh environments.
N00X	N00X-0010	Stays in suspension for more uniform consistency.
N00X	N00X-0013	Comes pre-blended to increase protection from seed washout and erosion.
N00X	N00X-0014	Eliminates the extra step and mess of field-mixing tackifier.
N00X	N00X-0015	Covers 20% more physical ground per pound than 100% paper mulch, saving you time and money.
N00X	N00X-0019	100% wood fiber with a tackifier included.
TMXT	TMXT-0001	100% organic, greenwaste based compost approved for all types of gardening.

TMXT	TMXT-0002	This product fortifies the 100% organic products with a few or more of the following: bone meal, blood meal, kelp, feather meal, cotton seed meal, organic minerals, mycorrhizal fungi, and a variety of manure composts depending on the need and use for that soil or soil amendment.
TMXT	TMXT-0003	Blended with three manures and provides valuable nutrients along with beneficial microbes.
TMXT	TMXT-0004	our Compost is a higher nitrogen manure compost used for amending poor soils.
Q5LU	Q5LU-0001	Producing Exceptional Quality compost through windrow composting from the largest compost facility in the world, we meet the Class A pathogen and Vector Attraction Reduction Requirements of the EPA's 40 CFR 503's.
CO1J	CO1J-0001	No dyes have been added to it.
P1RE	P1RE-0001	The name says it all. Perfect for playgrounds.
P1RE	P1RE-0002	
P1RE	P1RE-0003	Dye are all-natural, not synthetic!
P1RE	P1RE-0004	Ideal for incorporation into soils
P1RE	P1RE-0005	Finely ground and aged wood mulch.
P1RE	P1RE-0006	Native hardwoods are ground twice
P1RE	P1RE-0007	Dye are all-natural, not synthetic!
P1RE	P1RE-0008	Dye are all-natural, not synthetic!
P1RE	P1RE-0009	ideal for applications requiring an additional boost of nitrogen.
P1RE	P1RE-0010	The resulting product has a reddish tint and is optimal for garden use and in topdressing trees.
P1RE	P1RE-0011	Dye are all-natural, not synthetic!
Z381	Z381-0001	This mix improves soil texture and moisture retention, encourages beneficial microorganisms and contributes important micronutrients.
Z381	Z381-0002	Stimulates root development with bat guano, bone meal, kelp, earthworm castings, and mycorrhizae
D1IH	D1IH-0001	improve the physical structure, chemical composition and biological properties of any soil type.
P17W	P17W-0001	100% natural ingredients. Homogenized and pasteurized at over 140°. Non-burning, nutrient rich, organic plant food. Adds beneficial soil organisms.
P17W	P17W-0002	Ingredients: Hardwood Sawdust, Biosolids
PI9P	PI9P-0001	Weed free! Increases infiltration and permeability of heavy soils, reducing erosion and runoff, Improves water holding capacity, reducing water loss and leaching in sandy soils, Supplies a variety of slow-release macro and micronutrients.
Y08N	Y08N-0001	Sold in bark form straight from the debarker.
Y08N	Y08N-0002	Sold in bark form straight from the debarker.
O105	O105-0010	You can count on quality as every bag of this compost features the seal of approval from the Organic Materials Review Institute (OMRI).
O105	O105-0012	This is an excellent all-purpose growing medium.
O105	O105-0013	Listed by the Organic Materials Review Institute (OMRI).
O105	O105-0014	Approved by the Organic Materials Review Institute (OMRI).

	H3H3	H3H3-0001	Meets ADA, ASTM, and CPSC requirements for playground surfacing. Third party certified by IPEMA. Commonly used and affordable surface to meet above mentioned standards.
Multipurpose Lubricants	A33R	A33R-0018	This biobased formula makes for an effective lubricant that protects longer than petroleum based lubricants and is a much more environmentally responsible product.
	A43G	A43G-0001	
	B682	B682-0150	An effective lubricant containing soy and other renewable resources and protects longer than petroleum based products.
	BP37	BP37-0009	Perfect for indoor and outdoor applications.
	BP37	BP37-0072	Displaces moisture, protects against corrosion and may be used on indoor and outdoor surfaces.
	EPBV	EPBV-0002	
	EPBV	EPBV-0003	
	HAKV	HAKV-0035	An environmentally safe lubricant that is non-toxic and non-flammable, it is a great way to cut rust around the house.
	HAKV	HAKV-0038	These products contain liquid wax esters that lubricate and protect the equipment by strongly attaching to metal surfaces giving superior lubrication of valves and governors, thus enhancing valve performance.
	I677	I677-0004	
	I677	I677-0007	
	I6TH	I6TH-0023	It has excellent oxidative stability and high biodegradability and can be used in environmentally sensitive areas such as in agriculture, marine, and food processing plants.
	J7A3	J7A3-0001	Environmentally and consumer safe multi purpose lubricant that prevents rust and corrosion while cleaning and polishing metal.
	J7A3	J7A3-0035	Environmentally and consumer safe multi purpose lubricant that prevents rust and corrosion while cleaning and polishing metal.
	J7A3	J7A3-0036	It has excellent applicability as a speed bearing lubricant.
	JCX4	JCX4-0008	A highly soluble lubricant designed to increase water's ability to lubricate.
	JCX4	JCX4-0009	
	JCX4	JCX4-0013	Excellent for control of emissions from the environment.
	JCX4	JCX4-0014	Is a highly stable, environmentally safe fluid, it prevents rust and oxidation.
	JY3G	JY3G-0008	
	JY3G	JY3G-0019

	JY3G	JY3G-0040	
KM73	KM73-0009	Synthetic ester-based general lubricating and hydraulic oils. Temperature range: -35 to 90 degrees Celcius. Rapidly biodegradable.	
MPV9	MPV9-0002	The formulation for this product provides superior protection for industrial equipment and is environmental safe.	
RGWJ	RGWJ-0051		
RGWJ	RGWJ-0097	It has excellent oxidative stability and high biodegradability and can be used in environmentally sensitive areas such as in agriculture, marine, and food processing plants.	

	SLWT	SLWT-0004	Economical and high performance Bio based
	SLWT	SLWT-0006	Contains NO mineral oil
	U922	U922-0001	Formulated by our chemists to meet specific requirements, our lubricants are available in a wide range of polymer and silicone-modified materials in gel, creamy gel or pourable forms.
Office Paper	R316	R316-0001	Unparalleled for its strength and tear-resistance. The perfect paper for paper-case bindings.
	R316	R316-0002	Iowa papers are exceptionally strong, well-formed and long-lasting, reflecting state-of-the-art and ongoing research on traditional papermaking procedures.
	R316	R316-0003	Each paper is handmade with Belgian flax, each sheet is gelatin sized.
	G1DK	G1DK-0001	Paper made from virgin non-wood fibers including hemp, flax and cotton. It can be recycled up to 7-8 times.
	I5B8	I5B8-0030	FSC Certified: Supporting responsible use of forest resources. Rainforest Alliance Certified. Post-consumer fibers are PCF (Processed Chlorine Free). Evergreen is manufactured alkaline with archival properties for longer life.
	OA4Q	OA4Q-0001	Our paper is now available in a versatile drawing weight (180 gsm). Features a lightly textured vellum finish and recommended for pen and ink, watercolor, and a variety of media.
	UNZW	UNZW-0002	Kenaf 10% kenaf, 90% post consumer 24 lb. Letterhead
	UNZW	UNZW-0003	Paper made from 50% bagasse a byproduct of the sugar-making process and 50% recycled fibers.
	O2OR	O2OR-0002	This paper is good looking and environmental friendly.
	Y8C2	Y8C2-0001	Environmentally positive high quality paper.
	WS82	WS82-0001	Paper is ideal for annual reports, CD booklets, catalogs, magazines and books.
	WS82	WS82-0002	Excellent printing quality for black & white and full-color projects.
	WV3A	WV3A-0001	Economic price and earth friendly. The paper is readily available and made entirely with Certified renewable energy.
	A662	A662-0004	FSC certified fibers. Printability is comparable to virgin paper.
	QW4J	QW4J-0002	The most environmentally positive, high quality printing.
	QW4J	QW4J-0003	The most environmentally positive, high quality printing.
	ARWD	ARWD-0001	Offers exceptional printability for letterpress, litho, engraving, foil-stamping or embossing. Inkjet and laser guaranteed.
	DPKX	DPKX-0004	Laser and ink jet guaranteed.
	DPKX	DPKX-0005	Made from 10% hemp/flax, 40% post consumer waste. The process is chlorine free.
	DPKX	DPKX-0012	Made from 10% hemp/flax, 40% post consumer waste. The process is chlorine free.
Topical Pain Relief Products	EZ5Y	EZ5Y-0001	Super-natural product.
	EZ5Y	EZ5Y-0003	Super-natural product.
	K2V1	K2V1-0036	Multiple uses for all kinds.
	K2V1	K2V1-0037	It is also helpful for injuries that are healing.
	K2V1	K2V1-0038	A great healing salve for everything from sprained ankles to diaper rash!
	K2V1	K2V1-0039	Available in 2 convenient sizes.
	K2V1	K2V1-0041	Now in a convenient salve!

K2V1	K2V1-0043	Relaxing and effective, it comes in a convenient roll-on bottle you can put right in your purse for those unexpected episodes.
K47Y	K47Y-0001	Penetrating, soothing, stabilized aloe vera gel teams up with warming and soothing agents to provide blissful relief from the strains and pains of the day.
ZK91	ZK91-0111	-eases minor muscle tightness and tension -helps warm up and loosen muscles before a workout -is formulated with seven herbal oils, including wintergreen, ginger root, menthol and eucalyptus -is ideal for athletes, dancers and people on the go
LEO5	LEO5-0043	Invigorating aroma Excellent for deep-penetrating massage Awakens and refreshes senses Not recommended for children
Y191	A21Z-0011	This Pain Relief Cream is designed to help alleviate joint pain - including that experienced by severe eczema sufferers.
Y191	Y191-0022	Plenty of slip to allow for massaging the area.
RZZ3	RZZ3-0008	bruises and aching muscles in shea butter, menthol and certified organic yam. Massage it in and feel the cool burn.
NN56	NN56-0009	This product is believed to increase the size of capillaries, thus increasing blood flow to injured and painful areas. By increasing blood flow, you not only promote healing, but also remove excess fluid at a faster rate. By removing excess fluid, you reduce pressure on the nerves, and thereby decrease pain. We have four different types of massage bars containing arnica, each with a slightly different essential oil blend. Some are designed to increase circulation, others for deep penetrating, and still others for pure pain relief.
Q5ON	Q5ON-0018	Ingredients: Certified Organic Canadian Cannabis Sativa (Hemp) Seed Oil, Candelilla Wax, (Arnica flowers, Certified Organic Comfrey Root, Certified Organic Comfrey Leaf, Certified Organic Rosemary Leaf Infused in Sweet Almond, Certified Organic Canola, Certified Organic Sunflower, or Organic Sesame Oil), Essential Oils of Rosemary and Wintergreen, Vitamin E, Rosemary Extract. Our new vegan salves all have their own unique healing properties. They all however have the benefits of high EFA organic hempseed oil. Our compact point of purchase displays use little room and have great visibility. Traditionally used for aches, sprains, strains, shin splints, and bruises.
Q5ON	Q5ON-0023	Our new vegan salves all have their own unique healing properties. They all however have the benefits of high EFA organic hempseed oil. Our compact point of purchase displays use little room and have great visibility.
Q5ON	Q5ON-0024	Ingredients: Certified Organic Canadian Cannabis Sativa (Hemp) Seed Oil, (Certified Organic Olive, Certified Organic Safflower, or Certified Organic Sunflower Oil), (Essential Oils of: Camphor, Spearmint, Eucalyptus, Peppermint, Wintergreen, Clove, Cinnamon, Thyme, Rosemary, Tangerine), Menthol Crystals, Camphor Crystals Our new vegan salves all have their own unique healing properties. They all however have the benefits of high EFA organic hempseed oil. Our compact point of purchase displays use little room and have great visibility. Cool Hemp Muscle Rub has traditionally been used as a therapeutic rub for sore muscles, and for overexertion, inflamed joints, and congestion.
LBH6	LBH6-0001	Suggested use for: arthritis, muscle aches and pains, strains, sprains, back aches, menstrual cramps, headache pain, migraines, sinus pain, tennis elbow, sciatica, bursitis, tendonitis, carpal tunnel, TMJ, deep bruising, fibromyalgia and warming muscles

LBH6	LBH6-0005	100% pure premier Emu Oil enriched with Natural Wintergreen Oil.
NF9O	NF9O-0024	A rich combination of natural herbs penetrate deep into muscles and joints providing soothing relief.
NF9O	NF9O-0026	A rich combination of Menthol, Peppermint, Eucalyptus, Wintergreen, Camphor and Rosemary provide the right amount of heat to naturally heal pain and soreness in a convenient spray. Extra Strength!
FA2X	FA2X-0002	It comes in an easy-carry jar and will also effectively moisturise the skin area it is applied to.
CF5Z	CF5Z-0003	No "medicine" smell. Works fast and lasts for hours. All natural.
NPR5	NPR5-0001	Many customers have also experienced a reduction in spider veins and relief from the pain of varicose veins. Ingredients: Arnica Flowers, Ginkgo, Gotu Kola, Horse Chestnut, Witch Hazel, and Wormwood, in a base of Extra Virgin Olive Oil and Beeswax.
NPR5	NPR5-0004	Ingredients: Cayenne, Cinnamon, Cloves, Eucalyptus, Ginger, White Willow Bark, Camphor and Menthol in a base of Extra Virgin Olive Oil and Beeswax.
L281	L281-0001	Our products can effectively help relieve pain from: • Sore Muscles & Muscle Sprains • Back, Shoulder, Neck Pain • Arthritis • Painful Ankle, Knee, Hip & Elbow Joints • Muscular Strains Use our products to relieve pain prior to: • Ultrasound Treatments • Massage Therapy • Soft Tissue Trigger Point Therapy • Rehabilitation Exercises • Pre and Post Workout Stretch
DMDM	DMDM-0001	Deeply soothing penetrating oil suitable for all skin types.
B682	B682-0173	These potent medicinal blends use only the freshest organic herbs, purest bee's wax, and highest quality natural oils available.
D02G	D02G-0001	It is a completely non-greasy clear liquid and will not stain skin or fabrics.
O357	O357-0002	Our muscle relief gives you the best of all possible worlds--pure emu oil for moisture and anti-inflammatory agency, capsiacin for pain relief, and a mess-free roll-on that allows you to treat your aches and pains without lotion.
O357	O357-0003	Made with 100% pure emu oil, this pain lotion is unique in its ability to absorb quickly and effectively. Because emu oil's composition is very similar to the composition of your own skin, it absorbs deeply into the dermis without leaving oily residue behind.
O357	O357-0004	Carrying this lightweight, pocket or purse-sized bottle of triple-refined, pure emu oil is a convenient way to keep your skin healthy and radiant. Pure emu oil works wonders on wrinkles, dry skin, minor cuts and burns, and it has been proven to sooth joint pain. Our convenient, small vial of pure emu oil will make it easy for you to moisturize and rejuvenate your skin. You'll want to have our Emu Oil product handy wherever you go.
O357	O357-0005	Our Pain Relief product uses 100% pure emu oil, whose natural anti-inflammatory properties soak deep into the skin to relieve your aches and pains.
O357	O357-0007	We use pure emu oil, filtered to remove impurities, and formulate it into a gentle cream that works as an effective treatment for skin maladies, particularly psoriasis. Emu oil is naturally rife with moisture and carries with it organic anti-inflammatory properties. Its chemical composition is extremely close to that of your own skin, so it absorbs much more quickly than other lotions and creams.

YONF	YONF-0001	It has historically been used by Navajo people for the treatment of bone and joint pain. It was mixed with sheep fat and rubbed into affected areas.	
KUC3	KUC3-0055	The nutrient-rich formula leaves your skin feeling smooth and refreshed, and the herbal extracts and essential oils soothe both muscle and joint. Ingredients include: Extra Virgin Olive Oil, Castor Oil, Beeswax, Ginger & Cayenne Extracts, Essential Oils of Ginger, Rosemary, Thyme, Sage, Rosehip, Cardamom, and Lemon Grass. (Lotion doesn't contain beeswax).	
WG58	WG58-0002	About the ingredients: Liposomes are derived from soybean lecithin and are very compatible with human skin. Comfrey is recognized as having healing properties. This product is very good for bruises and sprains. Other ingredients include Jojoba Oil, Castor Oil, Olive Oil, and Glycerine.	
WG58	WG58-0010	About the ingredients; Liposomes are manufactured using soybean lecithin and are very compatible with the human skin. Comfrey is recognized as having healing properties this product is very good for relieving pain and reducing bruising. Other ingredients includ	
U08Q	U08Q-0001	Each 1g contains extract equiv. to dry Arnica flower - Arnica montana (48mg) Tincture equiv. to dry Cayenne fruit - Capsicum frutescens (2mg) 100% pure and natural infused oil of Arnica flower - Arnica montana (12mg) 100% pure and natural essential oil of Wintergreen herb - Gaultheria procumbens (20mg) 100% pure and natural essential oil of Tea Tree leafy twig - Melaleuca alternifolia (4mg) in a base of superfine Lanolin. Contains Ethanol.	
U08Q	U08Q-0003	Each 1g contains extracts equiv. to dry Comfrey leaf - Symphytum officinale (36mg) Extracts equiv. tp dry Comfrey root - Symphytum officinale (36mg)	
A73E	A73E-0001	excellent for body builders	
DH45	DH45-0006	Made with pure cassia and peppermint essential oils, plus heat expressed Calendula oil. All the aboube is mixed into a great, soothing and vitamin rick canola oil gel.	
NH8P	NH8P-0006	Emu Oil penetrates and moisturizes far better than other oils to counteract drying of the skin. Emu Oil replenishes moisture to leave skin soft, smooth, and younger looking. Emu Oil soothes sore muscles and joint pain caused by minor sprains and bruises.	
U42A	U42A-0002	Massage helps to stimulate circulation, which recycles the supply of nutrients to tissues and also helps to remove toxins. Massage the area with the balm thoroughly and drink plenty of water (It helps to flush the toxins from the body).	
N512	N512-0003	Ingredients: Jojoba, Beeswax, Vitamin E, Essential Oils of Helichrysum, Marjoram, Vetiver and Lavender. Aides in a restful sleep. Works fast to soothe sore achey muscles and tension headaches. May help reduce some scaring.	
BOPR	BOPR-0005	The Ginger, Cardamom, Rosemary, and Lemongrass essential oils are also good for muscle and joint soothing.	
VZ7Q	VZ7Q-0002	Immediate application will help prevent the development of bruising.	
Turbine Drip Oils	DRL2	DRL2-0005	Readily biodegradable turbine drip for irrigation pumps. High-performance Soybased lubricants for your full range of agricultural and industrial needs.
	JCX4	JCX4-0001	Ideal for applications where lubricant leakage into water occurs. This turbine drip oil eliminates the risk of environmental contamination. It continues to lubricate should excessive moisture contamination occur.

RGWJ	RGWJ-0044	Our Oils are fully formulated ultimately biodegradable vegetable based high performance turbine oils.
XN42	XN42-0036	Our Oils are fully formulated ultimately biodegradable vegetable based high performance turbine oils.
