

A search of the AbilityOne online catalog ([www.abilityone.gov](http://www.abilityone.gov)) indicated that five of the items being proposed today (Bath Products, Dishwashing Products, Floor Cleaners and Protectors, Hair Care Products, and Oven and Grill Cleaners) are available through the AbilityOne program. While none of the specific products within these items are identified in the AbilityOne online catalog as being biobased products, it is possible that biobased products are available or will be available in the future. Also, because additional categories of products are frequently added to the AbilityOne program, it is possible that biobased products within other items being proposed for designation today may be available through the AbilityOne program in the future. Procurement of biobased products through the AbilityOne program would further the objectives of both the AbilityOne program and the Preferred Procurement program.
