	B682	B682-0070	Helps to prevent: • Defecation and urination on lawns, flower gardens, hedges, shrubs & trees. • Digging in lawns and flower gardens.

Item	Company	Product	Product Unique Feature
	B682	B682-0071	Lemon scent is not offensive to humans. Resists washing off. Reapply every 7-10 days. Great for garbage cans, too!
	B682	B682-0072	Active Ingredients: Capsaicin Pepper and Oil of Mustard
	B682	B682-0073	Registered in California for deer only
	B682	B682-0074	Repels by odor and taste
	B682	B682-0075	Safe to use indoors and outdoors
	Q3NM	Q3NM-0001	You can water our product in to speed its penetration into the soil, or you can let Mother Nature do it with the next rain. Over time the granule will decompose and release the repellent into the soil for a "time released" treatment. In addition, the carrier used in the product is an all-natural and fully biodegradable material
	Q3NM	Q3NM-0002	Our Deer Repellent and Plant Protector contains a dual action approach to repelling deer, rabbits and squirrels. First, the product contains a blend of three powerful (and natural) repellents: A very strong pepper source, a concentrated garlic oil and castor oil. The second part of our secret is the use of a highly refined fish oil and fishmeal. Both are meat based and are therefore repugnant to plant eating herbivores. In addition, the product's fish oil ingredient performs a second task - that of creating a waterproof coating on the plant's surfaces that resists wash off.
	KUC3	KUC3-0043	This product will not discolor grasses or plants.
	KUC3	KUC3-0044	Uses natural predator's urine to deter pests
	KUC3	KUC3-0045	This powder form does not allow for the product to soak into the ground or evaporate
	KUC3	KUC3-0046	Fox urine powder won't soak into the ground, evaporate or freeze like liquid fox urine
	KUC3	KUC3-0047	Uses dried coyote and fox urine
	KUC3	KUC3-0048	Keeps mice, rats, moles, voles, and shrews at bay.
	KUC3	KUC3-0049	This product's effect can last up to four weeks depending on rainfall or irrigation.
	KUC3	KUC3-0050	Latex polymer provides lasting protection from rain or shine.
	KUC3	KUC3-0051	One application will last up to 3 months.
	CH23	CH23-0008	Each unit lasts up to 6 months
	CH23	CH23-0010	This deer repellent won't wash off and leaves no residue. Works up to 3 months.
	CH23	CH23-0013	Our formula contains castor oil and a natural surfactant for fast soil penetration (beware of cheap imitations that don't contain a surfactant - they won't work!).
	AT5W	AT5W-0004	Our Deer Repellent also controls these animal pests: squirrels, rabbits and raccoons.

Item	Company	Product	Product Unique Feature
	W1D6	W1D6-0001	Also a natural air freshener, made of special blends of indigenous prairie plants that release a pleasing scent, ancient volcanic minerals absorb and trap unpleasant odors such as cigarette smoke, must, mildew and pet odors.

Item	Company	Product	Product Unique Feature
	T2CW	T2CW-0001	Natural-Ingredient, Handmade Soap with luxury levels of oils and butters - no one else has soap this rich.
	GWUO	GWUO-0002	Our soaps are handcrafted in small quantities with the finest available oils, fragrances and additives. This produces a pure and natural soap of uncommon quality with benefits for all skin types.
	NP4L	NP4L-0001	Our soaps are made in small batches -- they are just as time- and labor-intensive as larger batches, but we feel we have more control over the finished product in order to assure the quality we expect in our products. No two bars are exactly alike,
	W1O7	W1O7-0001	Our Soaps offers handcrafted soaps and shampoo bars, made from scratch, using the cold-process method. We cut our soaps into generous bars weighing at least 4.5 ounces. Many soaps may also be used as shampoo bars.
	ZEE9	ZEE9-0001	This wonderful blend of Apricot, Sunflower, Sweet Almond, and Jojoba oil can be added to bath water, applied directly to skin as a moisturizer or used as a light massage oil.
	ZEE9	ZEE9-0002	This luxurious body cleanser washes off clean and leaves your skin feeling smoother than ever.
	ZEE9	ZEE9-0010	So if you want fresh, smooth, and revitalized skin, without the use of chemicals and detergents, experience the botanical delights of our Soaps!
	ZEE9	ZEE9-0011	Enriched with Shea Butter, Aloe, Chamomille, Patchouli, Jasmine, Yarrow, and Vitamin E. 8 oz jar.
	UCJY	UCJY-0001	Available in various scents, shapes and sizes.
	MK8H	MK8H-0001	Our company is committed to providing you with a product that is ALL NATURAL. We specialize in luxurious handmade herbal soaps rich in natural glycerin for healthier skin.
	MK8H	MK8H-0002	Our Handmade Soaps and Shampoo Bars are free of synthetic chemicals.
	EI9Y	EI9Y-0001	To eliminate any possibility of irritation, no fragrance has been added. 4.3 oz bar.
	EI9Y	EI9Y-0002	While it is possible to make soap with any plant or animal oil or fat (including cheap oils or even restaurant grease), at our company we choose to make our soaps with the highest quality pure vegetable oils and butters (no animal fats or oils).
	EI9Y	EI9Y-0003	Comes in a choice of 4 scents, each a different color. 7.5 oz bottle. Refills (16 oz) are also available.
	FCM9	FCM9-0009	16-ounce Eucalyptus-Spearmint, Peppermint Leaf, Vanilla-Almond and Fresh Ginger are completely biodegradable and environmentally responsible—even for use outdoors.
	Z81N	Z81N-0001	In a world where more than one-third of all personal care products contain at least one ingredient linked to cancer, it is good to know there is a bubble bath made with no harmful components.
	OZMF	OZMF-0001	Our scrub is our best selling scrub, and will leave your skin smooth and glowing .

Item	Company	Product	Product Unique Feature
	A441	A441-0001	Our soaps are VERY large bath bars with an approximate net weight of 5.6 - 5.8 ounces. They last a long, long time! We've been lavish with the essential oils, so the scent lasts as long as the bar does.
	J3Z4	J3Z4-0001	We never use synthetic preservatives, NO SLS, NO parabens. We believe what you put on your skin is as important as what you put in your body.
	J3Z4	J3Z4-0002	We never use synthetic preservatives, NO SLS, NO parabens. We believe what you put on your skin is as important as what you put in your body.

	NN56	NN56-0001	With 21 varieties of herbal soap, it is easy to find types that meet your needs and desires. 3.5 oz bars.
	NN56	NN56-0002	Available in 8oz or 17oz bottle. Available in 8 essential oil blends, 40 fragrances, and even custom blends.
	NN56	NN56-0009	Our product is believed to increase the size of capillaries, thus increasing blood flow to injured and painful areas. By increasing blood flow, you not only promote healing, but also remove excess fluid at a faster rate. By removing excess fluid, you reduce pressure on the nerves, and thereby decrease pain. We have four different types of massage bars containing arnica, each with a slightly different essential oil blend. Some are designed to increase circulation, others for deep penetrating, and still others for pure pain relief.
	M1KT	M1KT-0001	Formulated with no sodium lauryl sulfates or sodium laureth sulfates, our body wash gently but thoroughly cleanses your body. Available in a wide variety of scents.

	FL62	FL62-0014	
	S542	S542-0001	Luxurious soaps to delight your senses.

Item	Company	Product	Product Unique Feature
	S542	S542-0002	Handmade bath soap in wonderful aromatherapy scents. All natural and soothing to your skin.
	S542	S542-0003	Whether you want an all natural, gentle soap for your baby or you have the sensitive, delicate skin of a baby yourself -- this is the soap for you!
	S542	S542-0004	Our solid shampoo bars are not liquid. That means you can carry them on the plane with you. In addition to being flight approved they are all natural and they smell wonderful!
	DH45	DH45-0002	These are skin care gems that contain lots of natural glycerin, and wonderful fragrance.
	X8MQ	X8MQ-0001	
	YQES	YQES-0001	You will find that our soaps are long lasting, lather nicely, and are both good for the body and the senses. We consider each of our premium bars of soap to be a unique treasure.
	T8CK	T8CK-0001	Available in a variety of scents
	W6OT	W6OT-0001	Our top-quality, all-natural soaps brighten your bath and sink. Each bar is unique with handcrafted artisan textures, carefully blended essential oils and succulent feel.
	IKKT	IKKT-0002	Skin becomes smoother and clearer. The texture of the skin is refined and the appearance of fine wrinkles and skin blemishes are minimized especially when combined with Massage oil or Lotion. Its effectiveness is truly remarkable.
	NN96	NN96-0001	Unlike store-bought products which contain processed ingredients and preservatives, all our products are made fresh, from pure ingredients. The advantage is the full, healthy effect of the herbs and essential oils.
	NN96	NN96-0002	Made with high-quality, food-grade oils and exotic butters.
	NN96	NN96-0003	Our scrubs, lotion bars, salts & effervescents are made with high-quality, food-grade oils and exotic butters.
	UF6G	UF6G-0001	Available in a variety of scents
	X7A6	X7A6-0001	High-quality natural soaps.
	T834	T834-0002	Our Soaps are handcrafted using the traditional cold process method in small batches of 16 bars at a time.
	EF1Y	EF1Y-0002	All of our soaps are made from goat's milk, saponified vegetable oils, honey, beeswax, and other natural ingredients. Made in small batches by cold process, the soap is poured into wooden molds, cut by hand, and allowed to cure for three to six weeks. Eac
	S99I	S99I-0001	Our bar soaps are made from all natural, moisture-rich ingredients to leave your skin soft, cleansed and wonderfully moisturized.
	BW8F	BW8F-0001	Our handcrafted soaps are nourishing for you and your skin. Once you've tried our soaps, you won't want to go back to mass-produced soap products. Our soaps are made from 100 percent pure vegetable and/or fruit oils (olive, coconut and/or palm), with

Item	Company	Product	Product Unique Feature
	W518	W518-0001	Our luxury gourmet soaps are hand made with all natural ingredients and carefully planned to maximize skin care benefits. Each batch of hand made soap is made from scratch; we use the old fashioned cold-process method which retains all of the natural gly
	QP1D	QP1D-0001	Available in twenty-eight varieties including: berry wine, english rose, and man scent. The ingredients in these handcrafted soaps include olive oil, coconut oil, palm oil, soybean oil, cocoa butter and shea butter. These natural oils are moisturizing a
	EZZ2	EZZ2-0001	This soak was created for the woman who loves herself. We've combined whole milk, Meyenberg goat's milk, buttermilk, and coconut milk with a delicate sweet pea scent to create a fabulously indulgent bathing experience. Softening, soothing, and nourishing
	EZZ2	EZZ2-0002	
	N512	N512-0001	Available in six varieties: cool mint, lavender, sweet orchard, rose petal, vanilla and woodland. Ideal for shaving. Ph Balanced - Naturally antibacterial - Certified Vegan - Bio degradable - Cruelty Free. Our handmade soaps truly are luxurious - they
	X32K	X32K-0001	Available in fifteen varieties including: chocaholic, juniper breeze, and pine tar. Our handmade soaps truly are luxurious - they create a creamy rich lather that gently cleanses the skin, leaving it feeling soft and smooth and lightly fragranced.
	Z777	Z777-0003	It has a natural dye of annetto seed, and is the most mellow, gentle, soap we make. There are many more fragrances.
	VHV6	VHV6-0001	Available in twenty-three varieties including: margerita, red currant, and peppermint stick.
	TS3V	TS3V-0001	Available in four varieties: beauty, bedtime, healing hands, and sport. Experience pleasant feeling moisturizing bars that promote healthier skin naturally. Treat your skin kindly with our naturally restorative, botanically bodacious soap bars.
	TS3V	TS3V-0003	Its soap base has no detergents, surfactants, sulfates or animal products. Available in twelve varieties including: brazil nut and pineapple.
	V777	V777-0001	Available in six varieties including: banana and kiwi.
	Y935	Y935-0004	
	VZBI	VZBI-0001	Our shower gels contain organic oils of coconut, palm and olive and only pure essential oils of lavender, tea tree, grapefruit, peppermint and orange for therapeutic and aromatic effects.
	VZBI	VZBI-0002	Our Body Scrubs are the most natural skin exfoliants available. Infused with essential oils blend and containing avocado oil and sweet almond oil, they gently remove dry skin cells, improve circulation and leave your skin silky soft.

Item	Company	Product	Product Unique Feature
	P01I	P01I-0005	Formulated for combination and oily skin, this cleanser rinses away oil and impurities while promoting clear and glowing skin. With Alpinia extract, widely known for purifying and clearing troubled skin.
	UA17	UA17-0001	Cream soap contains 86% plant oils. The delicate fragrance is white blossom.
	UA17	UA17-0002	100% natural mineral salts and oils.
	P8Z5	P8Z5-0003	Our super mild handmade bar soaps are USDA Certified Organic to Food Standards. Made from a hypoallergenic vegetable base of organic Coconut, Palm, Olive and Palm Kernel oils, we use natural, aromatherapy essential oils and botanical extracts to alter the
	P8Z5	P8Z5-0004	Our unique Castile Bath & Shower Gel is made by mixing Aloe Castile Liquid Soap with a special extract of vegetable gums in glycerin.
	P8Z5	P8Z5-0007	We believe it to be the mildest castile soap formula available anywhere! This has become the base from which we developed our entire line of castile liquid soaps, bath & shower gels and nontoxic cleaners.
	BOPR	BOPR-0018	After a hard day on the Playing Fields of Life, use this soap to relax muscles, soothe mind & cleanse body. We chose organic and wild-crafted ingredients for their healing effect on both Planet and skin.
	BOPR	BOPR-0021	Finely powdered Volcanic Pumice provides the grit, while Organic Olive Oil, Beeswax and Wild African Shea Butter deep clean, soothe and condition without drying or irritation.
	BOPR	BOPR-0022	We used rich, organic, and wild-crafted botanicals gathered from the far corners of the Earth. We chose ecologically produced ingredients with exceptional healing and beautifying properties.
	BOPR	BOPR-0023	The special blend soothes and luxuriates skin while fragrant essential oils help to calm your thoughts - allowing you to fall asleep naturally.
	GG8G	GG8G-0001	Feel your skin breathe easier with this purifying cleanser. It gently but firmly eliminates impurities, make up and excess oiliness leaving skin refreshed and invigorated.
	GG8G	GG8G-0002	Create a mineral spa in your bathtub with our pure salts from the Dead Sea. They'll help you relax, relieve tension, soothe sore joints and muscles.
	GG8G	GG8G-0007	This soothing cleansing milk deep cleans without drying or irritating even the most sensitive skin. Removes dirt, make up and impurities without stripping the skin's naturally protective oils.
	TG1X	TG1X-0001	All of our soaps are handmade using organic oils, botanicals, and mountain fresh spring water.

Item	Company	Product	Product Unique Feature
Bioremediation Materials	ULHI	ULHI-0039	The only known effective CARCINOGEN FREE solution to numerous agricultural challenges. It is rescuing the Mexican farm economy, providing increased farm employment and reducing the illegal alien problems. It is pending EPA registration as a "low risk bio-pesticide" but cannot be sold as such in the U.S. as a insecticide/pesticide before the registration process is complete.
	EP3Q	EP3Q-0007	Dry product Dry application No slurring needed Easy application
	T4T1	T4T1-0015	This can last up to 20 days or more. Most competitive products last about 3 days. Used effectively to cut down VOCs (volatile organic compounds or BTEX). This product is in concentrate. Dilute with water. One gallon makes 10 gallons of ready to use product.
	T4T1	T4T1-0010	Bioremediation blend
	T4T1	T4T1-0009	We custom blend up to 86 different strains of the highest quality microbes at a concentration of approximately 200 billion microbes per gallon or per gram with our products. Our quality control ensures our customers of plenty of viable bioremediation microbes in a quality product that will work to bioremediate organic and hydrocarbon environmental pollution contaminants.
	T4T1	T4T1-0005	We custom blend up to 86 different strains of the highest quality microbes at a concentration of approximately 200 billion microbes per gallon or per gram with our products. Our. quality control ensures our customers of plenty of viable bioremediation microbes in a quality product that will work to bioremediate organic and hydrocarbon environmental pollution contaminants.
	T4T1	T4T1-0004	We custom blend up to 86 different strains of the highest quality microbes at a concentration of approximately 200 billion microbes per gallon or per gram with our products. Our quality control ensures our customers of plenty of viable bioremediation microbes in a quality product that will work to bioremediate organic and hydrocarbon environmental pollution contaminants.
	T4T1	T4T1-0002	This microbial bioremediation product consists of microbes that help stimulate the natural microbes in cold temperatures.
	T4T1	T4T1-0011	Utilized for all hydrocarbons, environmental pollution and oil spills of natural petroleum products such as Gasoline, Diesel, Motor Oils, Hydraulic Oils, Crude Oils, Sour Crude, Chlorinated hydrocarbons and other complex hydrocarbons and organic chemicals.
	T4T1	T4T1-0001	It was developed to attack spills and leaks quickly and efficiently, turning the offending hydrocarbons and other organic wastes into harmless by-products of carbon dioxide and water.
	C4T6	C4T6-0003	Rapidly degrades all major components of gasoline, diesel, #4, #5, & #6 fuel oils. Non-toxic, non-corrosive, safe to handle and store when used as directed.

Item	Company	Product	Product Unique Feature
	C4T6	C4T6-0004	Non-toxic, non-corrosive, safe to handle and store when used as directed. Reduces further environmental damage by degrading the contaminant plume. Cultures can tolerate diesel concentrations inhibitory to many indigenous populations
	C4T6	C4T6-0005	Rapidly decontaminates soil and groundwater containing gasoline, as a result of leaking underground storage tanks, transfer line leaks and spills. Non-toxic, non-corrosive, safe to handle and store when used as directed.
	C6IV	C6IV-0008	has been successfully used to clean up underground storage tanks, oil field and refinery spills and industrial chemical contamination.
	F817	F817-0003	Rapidly degrades all major components of diesel. Available in dry and liquid. Can tolerate diesel concentrations inhibitory to many indigenous populations.
	F817	F817-0004	Rapidly degrades all major organic components gasoline including benzene, toluene, and xylene. Available in liquid and dry formulations. Can tolerate gasoline concentrate inhibitory to many indigenous populations.
	F817	F817-0002	Available in liquid and dry formulations. More cost effective than excavation, hauling and incineration. Eliminates contingent liability associated with offsite disposal. Minimal site disruption. Provides a natural and ecologically sound approach to remediation.
	G7OB	G7OB-0001	This product has been used successfully in a variety of in-situ and ex-situ applications. M-1000H consists of live, specially-selected, naturally-occurring microorganisms, along with a supply of balanced nutrients in a ready-to-use liquid medium.
	ND2K	ND2K-0001	Volatile aromatic hydrocarbon degradation. Aliphatic and polynuclear aromatic degradation.
	J922	J922-0032	This product's microbes will continue enzyme production until almost all oil contaminants and other organic wastes are consumed. In addition to specific enzymes, several cultures create their own biosurfactant to aid in emulsifying oils and fats. This product is non-toxic, non-caustic, non-acidic, non-pathogenic (harmless to humans, pets & wildlife) and is biodegradable
	J922	J922-0031	microbes will continue enzyme production until almost all oil contaminants and other organic wastes are consumed. In addition to specific enzymes, several cultures create their own biosurfactant to aid in emulsifying oils and fats. This product is non-toxic, non-caustic, non-acidic, non-pathogenic (harmless to humans, pets & wildlife) and is biodegradable
	J922	J922-0029	This product's microbes will continue enzyme production until almost all oil contaminants and other organic wastes are consumed. In addition to specific enzymes, several cultures create their own biosurfactant to aid in emulsifying oils and fats. This product is non-toxic, non-caustic, non-acidic, non-pathogenic (harmless to humans, pets & wildlife) and is biodegradable.

Item	Company	Product	Product Unique Feature
	F263	F263-0002	applied directly to the spill to contain and then degrade the absorbed oils. When used on oily and chemical mixtures it cleans up your spill at a nominal cost. Can absorb and break down a broad range of wastes from petroleum recovery, transportation, storage, and refining, steel making, metal forming, textile, hydrocarbon and chemical processing. It is especially effective in spills on water; but its ingredients are 100% compatible with soil applications.
	F263	F263-0003	applied directly to the spill to contain and then degrade the absorbed oils. When used on oily and chemical mixtures it cleans up your spill at a nominal cost. Can absorb and break down a broad range of wastes from petroleum recovery, transportation, storage, and refining, steel making, metal forming, textile, hydrocarbon and chemical processing. It is especially effective in spills on water; but its ingredients are 100% compatible with soil applications.
	F263	F263-0004	Since components occur naturally, they are environmentally friendly and will be reduced to background levels when the contamination is completely digested.
	F263	F263-0005	Oil biodegrader for use with another product in managing oily water. Since this product's components occur naturally, they are environmentally friendly and will be reduced to background levels when the contamination is completely digested.
	M84A	M84A-0001	Use to remove contaminants below the water's surface or on concrete, stone, and porous surfaces. Most effective when used with another one of our products.
	Z451	Z451-0002	A shorelie oil spill remediation with a vegetable oil-based biosolvent.
	J62X	J62X-0001	Benefits: Deep cleans soils, Enhances natural processes, Eliminates unsightly areas, Reduces pollution liability, Lowers disposal costs
	X3UX	X3UX-0004	The best, most economical and all-natural method of restoring polluted soil. Easy to apply using common garden pump-up sprayers and commonly requires no special permitting.
	VF27	VF27-0002	Features: *2-3 Months Vs. Years, *Non Hazardous, *Transform, Not transfer, *Eats hydrocarbons, *No Harmful by Products, *Easy to Use, *Rapidly reduces VOC's & PCB's, *No Expensive Equipment, *Treat in Place
	K6DW	K6DW-0002	Specially formulated bio-remedial agent for hydrocarbon contamination in soil and is effective down to about 36" deep.
	K6DW	K6DW-0008	This product will solve water & soil hydrocarbon contamination problems.
	K6DW	K6DW-0004	A multi-purpose, innovative, bio-remedial, liquid-treatment formulated to resolve cleaning and contamination problems associated with crude oil.
	M49Q	M49Q-0001	We recommend this product for all active TPH bioremediation projects. Is recommended for most gasoline, BTEX, and MTBE projects.

Item	Company	Product	Product Unique Feature
	MRV8	MRV8-0001	Speical formula that provides the skin with natural essential oils and extracts to prevent aging and dryness. Soy protein replenishes the lipid barrier to help hold in the skin's intrinsic moisture while softening dry, chaffed and damaged skin.
	U3WV	U3WV-0002	This product can eliminate the need for costly, special and highly inefficient disposal of all hydrocarbons based compounds on solid, smooth surfaces.
	U3WV	U3WV-0003	Contains live, synergistic bacteria, in a remediation liquid.
	U3WV	U3WV-0006	In water, microbes recycle organic nutrients, ammonia and nitrates. During this complex process the fatty acid is water soluble and consumed by fish and plants, the CO2 is recycled by plants that use the carbon for cell structure. This process releases oxygen to the atmosphere.
	U3WV	U3WV-0004	Available in kit form. This product enables you to "clean-up" fuel, oil, chemical and solvent spill contamination on your property effectively and economically. The use of the included "micro-nutrients" accelerates the bio-remedial process and allows some clean-ups in as little as 30 days.
	NEN3	NEN3-0001	Products have a 95% success rate on bioremediation projects around the world, these products can be applied in situ or ex situ, as part of a bioreactor process, in landfarms, in biopiles, in pump and treat scenarios and in numerous other ways.
	M2RO	M2RO-0026	Each microbial system is custom formulated based on what particular hydrocarbon is present and at what concentration.
	B253	B253-0001	Through the use of biocatalysts, our advanced technology strives to simplify redundant, outmoded, expensive and inefficient systems as well as to eliminate the need for hazardous chemicals.
	EA1B	EA1B-0001	Live, ready to use and can digest a full range of hydrocarbons
	EA1B	EA1B-0002	After surface treatment with another product the product leaves a temporary molecular protein film. This protein film minimizes re-attachment of oil to the treated surface. This product is formulated from 100% naturally occurring components and is completely biodegradeable. Insoluble in water. Doesn't change the chemistry of the oil. Goes to the oil side of oil/water separator meaning reduced waste.
	D9A9	D9A9-0003	It is 100% Safe, Totally Non-Hazardous, Non-Flammable, with a pH of 7. Solves the World's Largest Pollution Problem of Misplaced Hydrocarbons Splits Oils and other Hydrocarbons by the Process of Hydrolysis Transforms, Not Transfers, All Contaminated Hydrocarbons into Non-Toxic Substances An Ecological Utilization of Naturally Occurring Micro-Organisms to Degrade Targeted Organic Pollutants on Land, Water and Hard Surfaces Non-Flammable, Non-Hazardous
	H73G	H73G-0001	The naturally occurring PM1-like organisms are difficult to isolate and do not have the same ability to biodegrade MTBE as the laboratory strain.

Item	Company	Product	Product Unique Feature
	R5B9	R5B9-0001	Bioremediation can be achieved using natural fungi and/or microbes.
	I9DQ	I9DQ-0001	We specialize in implementation and development of innovative remediation technologies.
	QO3C	QO3C-0002	Has been used successfully to treat contaminated ship's bilge, water, soil, accumulation tanks, sumps, and pits. Remedation of oily water containing 0-10% oil, can typically be accomplished in days and weeks, not years.
	EK5D	EK5D-0001	A woman is now afforded the convenience of being able to stand up to urinate without having to completely disrobe. This is a convenient, hygienic, portable, leak proof, discreet, simple solution to the poor sanitary and problematic circumstances which continually confront us all, especially women, particularly at mass gatherings, uncomfortable locations and natural disasters. Ultimately this product gives everyone, especially ladies and children, a simple and sanitary choice when confronted with dirty restroom facilities which we are all confronted with in daily life.
	AY6T	AY6T-0001	100% naturally occurring microorganissms.
	RS9R	RS9R-0001	Remediation of remote areas where mobilization of traditional equipment is not possible, Treatment of spills on site, eliminating the need for a costly second party to excavate and remove the contamination. For reasons of principle and pragmatism, the bacteria and enzymes that make up this product are all natural, non-genetically altered, and non-pathogenic.
Compost Activators and Accelerators	B2TR	B2TR-0001	The bacteria and fungi provided in the activator heats up the compost material.
	SN66	SN66-0004	Formulated to digest a variety of household food wastes, paper, yard waste and most organic municipal waste (leaves, straw, grass, animal waste, etc.) within 4 to 6 weeks depending on environmental conditions (humidity, temperature, aeration, etc.).
	A8AW	A8AW-0069	A natural biological activator for use with compost piles and solid organic waste. Contains specific bacterial and fungal cultures for degrading organic wastes
	A8AW	A8AW-0074	Contains beneficial bacteria which promotes fast breakdown of organic matter into rich compost. Use our Compost Activator on a regular basis to accelerate the composting process.
	A8AW	A8AW-0075	Our Compost Starter is a natural biological activator for use with compost piles and solid organic wastes. Our Compost Starter contains specific bacterial and fungal cultures that are needed to inoculate a new compost pile. It ensures a faster startup time and a
	J922	J922-0004	This product is a unique combination of mesophilic microbes, molds and yeast, and six slected microbial cultures, which all occur naturally in soil and compost but in smaller numbers. It is non-toxic, non-caustic, non-acidic, non-pathogenic (harmless to humans, pets & wildlife) and is biodegradable.

Item	Company	Product	Product Unique Feature
	J19R	J19R-0005	Combines high temp and low temp bacteria to be effective under a wide range of climactic conditions.
	I6EL	I6EL-0008	Contains beneficial organisms •Energizes soils! • Stabilizes nutrients and reduces odors
	B046	B046-0001	This product contains billions of microorganisms especially cultured for composting, coupled with proper energy sources and PH balancers to assure composting success.
	I3VX	I3VX-0044	A special formula blended compost enhancer made of highly active microorganisms, nutrients, micronutrients and special enzyme systems that will synergistically accelerate the natural compost degradation cycle. Contains the highest microbial count per gallon in the market place.
	I3VX	I3VX-0045	Redworms eat and burrow twenty four hours a day aerating the soil, getting ... improving water retention. They are a natural tie in for cold composting. Redworms also help keep the soil loose and consume ordinary soil and cast ... loosening and aerating the soil.
	PC6X	PC6X-0004	Also works on floor drains, grease traps, sinks, urinals and toilets to reduce odors.
	PC6X	PC6X-0006	The natural enzymes quickly break down proteins, starch, carbohydrates, animal and vegetable fats & oils, and paper for the most effective waste digestion.
	EG9S	EG9S-0007	-Entire kit treats 200 cubic feet of yard waste -Two supplemental bags included - can be used to line existing bins, or serve as ad hoc stand-alone system for times when waste exceeds existing bin's capacity -Simple to use - 3-4 oz. Pedian H sprinkled on each 1 foot layer of material
	EG9S	EG9S-0008	Capacity: 18 month supply (keep dry) Weight in lbs: 4 lbs per box (1.8 kgs) Composition: 100% natural organic materials 4-4-2 (N-P-K) -- contains no synthetic or petroleum products
	A33R	A33R-0058	Accelerates Digestion of Organic Residues The compost maker accelerates the digestion of organic residues, stabilizes nutrients and humus, and reduces odors. It adds rich minerals and turns waste into rich fertilizer.
	LTIG	LTIG-0017	We blend 100% natural ingredients for this special mix. It is great for heating up compost piles for quick breakdown. A hot compost pile also helps destroy weed seeds and pests that may be spread in compost.
	YVPO	YVPO-0001	Approved for organic growing by the Soil Association.
	QIPO	QIPO-0001	-Act as a natural activator that jumpstarts the composting process. -Speeds up decomposition of organic material -Works on grass clippings, leaves, food wastes, fruit and vegetable waste and other similar organic material -Reduces odors harmless to people, animals and plants

Item	Company	Product	Product Unique Feature
	M2RO	M2RO-0010	Generates high core temperatures to expedite biodegradation Contains mesophilic (low temperature) bacteria & thermophilic (high temperature) bacteria, which enables it to be effective under a wide range of climactic conditions Inhibits the volatilization of nitrogen, this creates nutrient rich compost and significantly reduces the odor associated with composting
	M3JJ	M3JJ-0007	Great soil conditioner - reintroduces natural biological processes into the soil to create a healthy root rhizosphere and increase availability and absorption of nutrients.Excellent in potting mixes, use in place of peat or coco fiber products as it holds up to seven times its volume in water.
	M3JJ	M3JJ-0009	Features a booster that is added near the end of brewing to sustain microbial activity during application.
	M3JJ	M3JJ-0013	It contains 55 strains of nitrogen-fixing, decomposing and other soil bacteria, plus enzymes and hormones in a specially prepared herbal base.
	M3JJ	M3JJ-0014	Developed by a world renowned microbiologist, this inoculant contains 30 strains of aerobic bacteria, fungi, actinomycetes, and other beneficial microbes.
	M3JJ	M3JJ-0089	Can be used in fall or spring on turf for thatch decomposition.
	B682	B682-0057	Contains a proprietary blend of microorganisms with specifically designed nutrient sources that start the compost process quickly and efficiently.
	B682	B682-0058	Red wiggler worms can process large amounts of organic matter and, under ideal conditions, can eat their body weight each day.
	B682	B682-0175	Excellent for use with lawn clippings, brown leaves, wood chips, pine needles, twigs, etc. Two pound box converts 500-750 lbs. of yard waste into mulch.
	KUC3	KUC3-0006	This compost uses several different organic carriers for the specially selected strains of bacteria, providing a natural and nutritious base for their existence, prior to being introduced to the compost pile.
	KUC3	KUC3-0020	Each one pound box comes with a scoop and treats up to one ton of organic material.
	RS9R	RS9R-0003	destroys odors faster, more complete liquifaction of waste reduces crusting and bottom solids buildup easier and faster pumping all natural biodegradable enviromentally safe
	RS9R	RS9R-0006	
Concrete and Asphalt Cleaners	FGYO	FGYO-0002	Digests industrial hydrocarbon waste and cleans and remediates petroleum on any hard surface
	U4WQ	U4WQ-0007	
	PN64	PN64-0013	Does not contain any abrasives, bleaches, or ammonia and leaves not stain or harmful chemical odor
	C4T6	C4T6-0006	Contains essential microbial nutrients and oxygen catalysts

Item	Company	Product	Product Unique Feature
	EP3Q	EP3Q-0002	this product helps prevent contaminants from entering storm drains and fresh water and ground water supplies.
	EP3Q	EP3Q-0003	This product helps prevent contaminants from entering storm drains and fresh water and ground water supplies.
	F817	F817-0001	Non-solvent, non-toxic, non-abrasive, non-flammable. Works above and below ground surface. No removal or replacement of contaminated materials is necessary.
	M3D3	M3D3-0032	A heavy duty granular concentrate that quickly emulsifies grease, oil and grime from concrete floors. It produces no strong fumes and is non-flammable for your safety.
	J19R	J19R-0001	Cleaner utilizes powerful and unique organic cleaning agents which will remove oil, grease, dirt and stains from concrete, asphalt and stone. Now you can clean these surfaces safely and effectively without harming pets, wildlife, lawns or gardens.
	F263	F263-0001	This product is formulated to lift, emulsify, clear and clean localized oil and other hydrocarbon spills; to clear sumps and plumbing lines; and, to reduce cleanup time and cost.
	M84A	M84A-0001	Use to remove contaminants below the water's surface or on concrete, stone, and porous surfaces. Most effective when used with CW Blue Surfactant.
	FO61	FO61-0001	Orange Peel is a V.O.C. compliant, non-etching concrete cleaner used to prepare surfaces for Conspec penetrating sealers or general maintenance.
	BP37	BP37-0180	• Good for various oils and greases • Will not damage sealed or painted surfaces • Non-flammable • Remains active even if left to dry • Non-toxic and biodegradable • May be used at room temperature to reduce energy consumption • Viscous liquid will
	NAP5	NAP5-0003	Our Microbial Products contains no solvents and is non-toxic and non-hazardous.
	J62X	J62X-0003	Removes oils stains from concrete & asphalt driveways. Cleans up oil spills in soil, sand & gravel. Cleans up oil spills on hard surfaces.
	I2HW	I2HW-0001	Oil Stain Remover is biodegradable, phosphate-free, and has a fresh orange fragrance.
	X3UX	X3UX-0003	This is an aqueous based non-toxic cleaner concentrate containing aerobic, all natural, "oil-consuming" microbes.
	X3UX	X3UX-0004	This product is the best, most economical and all-natural method of restoring polluted soil.

Erosion Control Materials	G8U2	G8U2-0001	Firstly, it covers, insulates and protects the surface. Secondly, the impregnated seed mix germinates and creates a green environment to permanently stabilise the soil. Thirdly, the it biodegrades slowly to form nutrients for sustained plant growth.
	G8U2	G8U2-0002	This erosion control mat consists of a dense mesh of jute fibres that absorbs the impact of rain bombardment and reduces run-off velocity. The mat protects the soil until the seeds have germinated and a root system is established. Thereafter it slowly biodegrades to form nutrients and improve soil quality.
	G8U2	G8U2-0003	This erosion control mat consists of woven mats of coir yarn that effectively reduce the exposure of the soil surface to rainfall, wind and water. The tight weave of the mats will protect the soil until vegetation is established.
	G8U2	G8U2-0005	It absorbs many times its own weight of water and this creates the ideal protected habitat for reed and other water margin plants.
	HH8U	HH8U-0001	Made with uniformly distributed 100% coconut fiber and two polypropylene nets securely sewn together with UV stabilized thread.

Item	Company	Product	Product Unique Feature
	HH8U	HH8U-0002	These blankets are made with uniformly distributed 70% agricultural straw, 30% coconut fiber and two polypropylene nets securely sewn together with degradable thread.
	HH8U	HH8U-0003	Made with uniformly distributed 100% Aspen wood excelsior and one polypropylene net securely sewn together with degradable thread.
	HH8U	HH8U-0004	Made with uniformly distributed 100% agricultural straw and two polypropylene nets securely sewn together with degradable thread.
	HH8U	HH8U-0005	Made with uniformly distributed 100% Aspen wood excelsior and one polypropylene net securely sewn together with degradable thread.
	HH8U	HH8U-0006	Seed germination rate is 15% - 90% higher than other alternative products. Half the weigh of excelsior mats, it goes down quickly with less man hours per square yard.
	HH8U	HH8U-0007	Made with uniformly distributed 100% agricultural straw and one polypropylene net securely sewn together with degradable thread.
	HH8U	HH8U-0008	Made with uniformly distributed 70% agricultural straw, 30% coconut fiber and two jute nets securely sewn together with biodegradable thread.
	HH8U	HH8U-0009	This erosion control blanket is made of woven jute that is unbleached and dyed.
	HH8U	HH8U-0010	Made with uniformly distributed 100% agricultural straw and two polypropylene nets securely sewn together with degradable thread.
	HH8U	HH8U-0011	Seed germination rate is 15% - 90% higher than other alternative products. Half the weigh of excelsior mats, it goes down quickly with less man hours per square yard.
	MDL5	MDL5-0003	consist of unique softly barbed, interlocking, curled, Aspen excelsior fibers. They are weed seed free. Our blankets are available with a variety of environmentally sensitive and/or stronger netting types to match job site requirements.
	MDL5	MDL5-0005	Combines 70% straw with 30% coconut to create a longer life. It is degradable, consisting of the finest weed seed free agricultural straw fibers and the highest quality strands of coconut fiber.
	MDL5	MDL5-0006	Can bring a higher performance characteristic to your job site over conventional mulch mats, blown straw with plastic netting, or other single net straight fiber blankets.
	MDL5	MDL5-0007	Our blankets consist of unique softly barbed, interlocking, curled, Aspen excelsior fibers. They are weed seed free.
	MDL5	MDL5-0008	Contains 30% coconut fibers and is available individually wrapped or in master packs to allow for mechanical unloading and stacking.
	MDL5	MDL5-0009	Our Coconut blankets are degradable ECBs consisting of the finest weed seed free agricultural straw fibers and the highest quality strands of coconut fiber. It can provide longer erosion protection life up to 36 months.
	MDL5	MDL5-0010	Our heavy duty blankets can handle wind and water shear even on steep slopes.

Item	Company	Product	Product Unique Feature
	MDL5	MDL5-0011	The unique our excelsior fibers in our filter soil from the runoff and greatly reduce off-site problems without the installation and disposal hassles of silt fence.
	X939	X939-0001	Applicable to all climates and soil conditions Highly absorbent - up to five times its own weight in water
	X939	X939-0002	It handles water flows up to 8'/sec and is anchored by wooden stakes or metal pins.
	X939	X939-0003	It's a cost effective, all natural alternative to straw/wood fiber blankets.
	X939	X939-0004	As soon as they have accomplished their function as slope protection/erosion control (10 years depending upon application), our geotextiles decompose and fit into the natural ecological cycle, thus fulfilling the claim for indulgent, near-natural landscaping.
	X939	X939-0005	The answer to short term soil stabilization problems. Made from natural fiber - jute - undyed and unbleached, it is totally biodegradable within two years.
	X939	X939-0006	Made from natural fiber- jute- undyed and unbleached, it is totally biodegradable within two years.
	X939	X939-0007	As soon as they have accomplished their function as slope protection/erosion control (10 years depending upon application), our geotextiles decompose and fit into the natural ecological cycle, thus fulfilling the claim for indulgent, near-natural landscaping.
	X939	X939-0008	Apart from decomposing after doing their job, coir fibers have other enormous advantages compared with synthetic fibers. They are highly water absorbent, while retaining their physical properties. They store up water and build an ideal microclimate for the seeds underneath. Of all natural fibers, coir has the greatest tensile strength.
	GGG2	GGG2-0001	Ideal protection for highway slopes, berms and ditches Same day protection for newly topsoiled and seeded areas Dependable cover for winter protection of late season grading work Allows the movement of water through design
	GGG2	GGG2-0002	Ideal protection for highway slopes, berms and ditches Same day protection for newly topsoiled and seeded areas Dependable cover for winter protection of late season grading work Allows the movement of water through design
	MVJ7	MVJ7-0001	Our geo-textiles are made of pure coir drawn from the husk of the coconut without adding any synthetic material - a 100 natural product. This is our most essential, distinctive feature compared to conventional geotextiles used for soil stabilization, reinforcement. landscaping and erosion control.
	MVJ7	MVJ7-0002	Strong enough to hold sod in place
	MVJ7	MVJ7-0003	Can be used on Extreme slopes greater than 1:1.
	MVJ7	MVJ7-0004	Can be used for Hydrosprigging/hydroseeding after installation
	MVJ7	MVJ7-0005	1,000 to 1,500 linear yards can be installed by a two man crew in one day.
	MVJ7	MVJ7-0006	High retention capacity - water absorbency while retaining physical properties.

Item	Company	Product	Product Unique Feature
	MVJ7	MVJ7-0007	Has been successfully used on slopes up to 1:1
	UHUU	UHUU-0001	The blanket is made from 100% agricultural straw, stitched with degradable thread to a single layer of photodegradable polypropylene netting.
	UHUU	UHUU-0002	The blanket is made of 100% aspen wood fiber, stitched with degradable thread to a single layer of photodegradable polypropylene netting.
	UHUU	UHUU-0003	The double netting ensures more efficient erosion protection and plant growth than the single layer of netting.
	UHUU	UHUU-0004	The double netting ensures more efficient erosion protection and plant growth than the single layer of netting.
	UHUU	UHUU-0005	This blanket provides extra protection for extended vegetation growth.
	UHUU	UHUU-0006	This is a 100% biodegradable erosion control blanket designed for low maintenance areas such as subtle grades, swales, roadside slopes, and bioengineering. It provides protection in light to moderate rainfall and runoff. The blanket is made from 100% agricultural straw, stitched with biodegradable thread to a single layer of organic jute netting.
	K949	K949-0001	Provides erosion control up to 36 months.
	K949	K949-0002	Provides erosion protection for up to 12 month!
	K949	K949-0003	Double photodegradable polypropylene netting
	K949	K949-0004	Double photodegradable polypropylene nettings
	OJ80	OJ80-0001	"C" factor = 0.03 Our Shear Stress = 72 Pa (1.5 lbs/ft ²) (Erosion Control Blanket does not recommend for use in channel applications) It meets all requirements of erosion control blanket for use on slopes with gradients not exceeding 3:1 (h:v) it has been tested by the National Transportation Product Evaluation Program (NTPEP)
	OJ80	OJ80-0002	It meets all requirements established in the FHWA FP-03 as a Type 2D erosion control blanket for use on slopes with gradients not exceeding 2:1 (h:v)It has been tested by the National Transportation Product Evaluation Program (NTPEP)
	OJ80	OJ80-0003	It meets all requirements established in the FHWA FP-03 as a Type 3B erosion control blanket for use on slopes with gradients of 1.5:1 (h:v) It has been tested by the National Transportation Product Evaluation Program (NTPEP)
	OJ80	OJ80-0004	It meets all requirements established in the FHWA FP-03 as a Type 4 erosion control blanket for use on slopes with gradients of 1:1 (h:v) It has been tested by the National Transportation Product Evaluation Program (NTPEP)
	U888	U888-0002	These products are the only erosion control products that offer a true physical, chemical and biological filtration process.

Item	Company	Product	Product Unique Feature
	U888	U888-0003	These f products are the only erosion control products that offer a true physical, chemical, and biological filtration process.
	AN64	AN64-0005	Is natural and biodegradable.
	U83U	U83U-0001	The blankets are reinforced by a light weight photodegradable net with a uniform wheat straw filler for soil erosion control and seed bed mulching.
	U83U	U83U-0002	Slopes 2:1 -1:1, Channels to 7 fps, Heavy soils such as clay, loam, and even sandy clay loam it will withstand water flow rates up to 11.0 fps; on sandy soils flow rates up to 8.6 fps.
	U83U	U83U-0003	Heavy soils such as clay, loam, and even sandy clay loam it will withstand water flow rates up to 11.0 fps; on sandy soils flow rates up to 8.6 fps.
	U83U	U83U-0004	Slopes 3:1 - 2:1, Channels to 5 fps, Heavy soils such as clay, loam, and even sandy clay loam it will withstand water flow rates up to 4.8 fps; on sandy soils flow rates up to 3.9 fps.
	U83U	U83U-0005	It differs from our other excelsior blanket in that its green in color, two options for size, and manufactured by a different firm.
	U83U	U83U-0006	Slopes 1-1 / 2:1, Channels - High flow, Heavy soils such as clay, loam, and even sandy clay loam it will withstand water flow rates up to 11.0 fps; on sandy soils flow rates up to 8.6 fps.
	R1PC	R1PC-0003	Sprays easily in one application for consistent growth and reliable performance. The result is faster, uniform growth, using the least amount of material, at the lowest total cost.
	R1PC	R1PC-0004	The addition of this organic tackifier provides increased erosion control because the fibers are more strongly bonded to the seed, the soil and each other.
	R1PC	R1PC-0005	This product maximizes the time savings and cost efficiencies of hydraulic application, and delivers dependable results from the start.
	R1PC	R1PC-0006	It saves you time. Mulch and tackifier are mixed for you. Better germination and soil protection thanks to bag-to-bag mixture consistency of tackifier. Eliminate gumballs and fish eyes that often result from in-tank mixture. Protect workers by eliminating irritating tackifier dust clouds and slippery work surfaces.
	R1PC	R1PC-0007	It is reinforced with photo-degradable polypropylene netting.
	R1PC	R1PC-0008	Unique among erosion control systems, it delivers the performance of an erosion control blanket combined with dramatic cost savings of time and labor. The result is a cost-benefit ratio that makes it the best choice for a very wide range of erosion control needs.

Item	Company	Product	Product Unique Feature
	R1PC	R1PC-0009	This is a special blend of whole wood fiber and clean recycled newsprint, plus high grade organic tackifier. You can save yourself both money and trouble. Once you try it, you may never go back to mixing your own tackifier. It is carefully premixed, so you can use this product with confidence and reliability. In fact, tests show that premixed fiber and tackifier combinations are 20-30% more effective than when mixed in the field.
	OPNH	OPNH-0001	Biodegrades to a soil-enriching and seed nurturing compost.
	OPNH	OPNH-0002	Nothing contours to the uneven surfaces of the earth—and delivers erosion protection and vegetation. Its all-natural cotton fibers form a protective web that holds soil in place on the steepest slopes, even against heavy wind and rain.
	W838	W838-0001	
	W838	W838-0002	
	W838	W838-0003

	H33W	H33W-0001	
	H33W	H33W-0002	This fiber has one of the highest durability and tensile strengths among all natural fibers.
	H33W	H33W-0003	This fiber has one of the highest durability and tensile strengths among all natural fibers.
	H33W	H33W-0004	
	H33W	H33W-0005	
	H33W	H33W-0006	
	H33W	H33W-0007	All blankets are available in photo degradable as well as biodegradable netting.
	H33W	H33W-0008	This fiber has one of the highest durability and tensile strengths among all natural fibers.
	H33W	H33W-0009	
	H33W	H33W-0010	
	H33W	H33W-0011	
	B79Z	B79Z-0001	The interwoven strands of the leno woven top net can move independently of each other, minimizing the risk of accidental wildlife entrapment and enabling the use of live stakes and installation of trees, shrubs and other plantings – without compromising erosion control performance.

Item	Company	Product	Product Unique Feature
	B79Z	B79Z-0002	The top net is leno woven which ensures superior mechanical stability and fiber retention under severe conditions and makes it more stable than other biodegradable blankets that use cross-lay netting only. The interwoven strands of the leno woven top net can move independently of each other, minimizing the risk of accidental wildlife entrapment and enabling the use of live stakes and installation of trees, shrubs and other plantings – without compromising erosion control performance.
	B79Z	B79Z-0003	
	B79Z	B79Z-0004	The top net is leno woven which ensures superior mechanical stability and fiber retention under severe conditions and makes it more stable than other biodegradable blankets that use cross-lay netting only. The interwoven strands of the leno woven top net can move independently of each other, minimizing the risk of accidental wildlife entrapment and enabling the use of live stakes and installation of trees, shrubs and other plantings – without compromising erosion control performance.
	B79Z	B79Z-0005	This product has proven very useful as an alternative to bare-ground seeding, sod, and other revegetation techniques. The installations offer complete flexibility in seed and soil selection, along with all the advantages offered by site-grown vegetation.
	B79Z	B79Z-0006	The rugged three-dimensional matting structure permanently anchors the root and stem structure of the vegetation, while the coconut fiber matrix provides erosion protection for up to 36 months during vegetation establishment.
	B79Z	B79Z-0007	It dramatically reduces surface sheet erosion, and offers significantly greater filtration capabilities and sediment retention than wattles, straw bales or silt fences.
	B79Z	B79Z-0008	The straw/coconut fiber matrix enhances the permanent matting's initial mulching and erosion control performance for up to 24 months. Proven in laboratory and field research, the permanent matting's high strength 3-D structure increases the shear resistance of vegetation up to 10 lbs / ft ² (480 Pa).
	B79Z	B79Z-0009	The double net construction of our product adds significantly to the structural integrity of the product, allowing it to offer more effective erosion protection and vegetation establishment than our single net blankets.
	B79Z	B79Z-0010	The top net on the product is leno woven which ensures superior mechanical stability and fiber retention under severe conditions and makes it more stable than other biodegradable blankets that use cross-lay netting only. The interwoven strands of the leno woven top net can move independently of each other, minimizing the risk of accidental wildlife entrapment and enabling the use of live stakes and installation of trees, shrubs and other plantings – without compromising erosion control performance.
	B79Z	B79Z-0011	The longevity of this product is enhanced by the inclusion of coconut fiber and by the UV stabilized top net, which provide extra protection during an extended grow-in period.

Item	Company	Product	Product Unique Feature
	B79Z	B79Z-0012	Seed and soil are protected from the ravages of soil particle detachment caused by wind and rain. The protective mulch provided by the blankets helps create optimal conditions for seed germination and growth.
	B79Z	B79Z-0013	Because this product combines structural integrity with rapid degrading characteristics, it is an ideal choice for moderate slopes and channels where close mowing will occur.
	WWW3	WWW3-0001	#1 form of erosion control with an unlimited number of applications.
	WWW3	WWW3-0002	erosion control fabric blanket used on slopes of 3: 1 works well on clay and sandy soils. It's a cost effective all natural alternative to straw/wood fiber blankets.
	M3JJ	M3JJ-0188	Breathable material allows air and water exchange.
	M3JJ	M3JJ-0192	Durable with multiple uses. Easily secured with ground staples.
	M3JJ	M3JJ-0193	Can also be laid over straw and stapled down on hillsides.
	J383	J383-0001	has a loose weave
	J383	J383-0002	straw blanket with photodegradable netting on the upper surface only.
	J383	J383-0003	Are a proven best management practice for the reduction of down stream sediment.
	J383	J383-0004	the addition of coir fiber provides greater durability.
	J383	J383-0005	Our Standard logs are the "standard" of the industry and are recommended for low energy sites such as ponds and swales. Our Premium logs are the strongest, 100% organic logs available and are recommended for higher energy sites such as lakes, bayshores and streambanks.
	J383	J383-0006	the 100% coir fiber provides maximum durability.
	J383	J383-0007	Ideal as a low cost, short term erosion control product for gentle slopes.
	J383	J383-0008	has a tight weave
	J383	J383-0009	The mat serves as a bioengineering media for plants, controls erosion in high velocity flow channels, or as sediment trap
	J383	J383-0010	has a medium weave
	J383	J383-0011	They slow the flow of water to reduce erosion and slow the run off by interrupting the length of the slope.
	J383	J383-0012	The addition of coir fiber provides additional strength.
	N00X	N00X-0001	This hydraulically applied blanket prevents polymer leaching and is designed to stand up to multiple rainfall events
	N00X	N00X-0005	Now with a proprietary biostimulant to ensure healthy growth even in harsh environments.
	N00X	N00X-0008	Exclusive defibrination process and new manufacturing process improves water holding capacity by 22%.

Item	Company	Product	Product Unique Feature
	N00X	N00X-0009	Reduces friction in hose, increases slurry shooting distance, controls erosion without having to cure.
	N00X	N00X-0011	It is less expensive and faster to install than blankets or sod and more effective than blankets, competitive BFMs and conventional hydraulic mulches.
	N00X	N00X-0012	100% wood fiber with the industry's leading tackifier
	N00X	N00X-0016	It can also be combined with other erosion control technologies to accommodate a broad range of conditions.
	N00X	N00X-0017	Eliminates the extra step and mess of field-mixing tackifier.
	N00X	N00X-0018	Low-density bale breaks up faster, absorbs water rapidly forming a homogeneous slurry to improve machine loading performance.
	N00X	N00X-0020	Absorbs water rapidly, forming a homogeneous slurry.
	N00X	N00X-0021	Comes pre-blended with 3% polymer tackifier to increase protection from seed washout and erosion.
	J833	J833-0001	Functional longevity: Short-term degradable (1 year)
	J833	J833-0002	Specially designed for swales, low-flow channels and moderate slopes
	J833	J833-0003	70% straw/ 30% coconut blend Functional longevity: Extended-term degradable (2 years)
	J833	J833-0005	Specially designed for swales, low-flow channels and moderate slopes
	HHUU	HHUU-0001	The open weave in our erosion control blanket allow seeding before and after installation.
	HHUU	HHUU-0002	Open weave allows planting through the mat without cutting the mat.
	HHUU	HHUU-0003	Because of possible threats to wildlife from the synthetic nets, the blanket is not recommended for environmentally sensitive applications.
	HHUU	HHUU-0004	100% biodegradable and last for about 6 months.
	HHUU	HHUU-0005	This blanket has field functional longevity of 4-6 years.
	HHUU	HHUU-0006	This product is designed for erosion protection and will last 18 - 24 months while providing support for vegetation establishment.
	HHUU	HHUU-0007	The polypropylene (PP) netting in these mats is photodegradable.
	HHUU	HHUU-0008	The 100% biodegradable blanket is the solution to environmentally sensitive general erosion control applications.
	HHUU	HHUU-0009	Are made of clean wheat straw processed from agricultural crops.
	HHUU	HHUU-0010	The open weave in the blanket allow reseeding before and after installation.
	W383	W383-0001	Functional Longevity (Months) 10
	W383	W383-0002	Functional Longevity (Months) 18

Item	Company	Product	Product Unique Feature
	W383	W383-0003	Functional Longevity (Months) 24
	W383	W383-0004	Functional Longevity (Months) 10-12
	G828	G828-0001	The blanket is of consistent thickness with one side covered with a photodegradable plastic mesh and stitched on 3" centers
	G828	G828-0002	
	G828	G828-0003	Each side is covered with a photodegradable plastic net.
	G828	G828-0004	This wide mat meets the needs for projects that require more than a revegetation mulch blanket. It is an economical product design for permanency and performance.
	U33H	U33H-0001	Ideal for use on steep embankments, landfill side slopes
	U33H	U33H-0002	The top and bottom sides of the blanket are covered with a synthetic mesh that is knitted with degradable thread, forming a durable mat.
	U33H	U33H-0003	Ideal for low maintenance areas such as subtle grades, swales, roadside slopes
	UU82	UU82-0001	It will resist erosion failure at flow depths over six inches and flow velocities of 10 ft/sec
	UU82	UU82-0002	It will resist erosion failure at flow depths of over 7 inches and flow velocities of 12 ft/sec.
	UU82	UU82-0003	It will resist erosion failure at flow depths of six inches and flow velocities of 8 ft/sec.
	UU82	UU82-0004	It will resist erosion failure at flow depths of four inches and flow velocities of 6 ft/sec.
	UG2U	UG2U-0001	100% environmentally friendly and efficient.
	UG2U	UG2U-0002	100% environmentally friendly and efficient.
	UG2U	UG2U-0003	100% environmentally friendly and efficient.
	UG2U	UG2U-0004	100% environmentally friendly and efficient.
	UG2U	UG2U-0005	100% environmentally friendly and efficient.
	UG2U	UG2U-0006	100% environmentally friendly and efficient.
	UU3U	UU3U-0007	It will biodegrade in just a few months in normal soil.
	WWWW	WWWW-0001	Used on slopes and in channels, help accelerate vegetative establishment and then anchor the mature plants to the soil.
	WWWW	WWWW-0002	Our biodegradable erosion control blankets are made from straw and coconut (coir) fiber,
Floor Cleaners and Protectors	A9PY	A9PY-0020	Use exclusively on oiled surfaces, e.g. pretreated floors
	A9PY	A9PY-0021	Does not contain any synthetic solvents or preservatives and it is fully biodegradable
	A9PY	A9PY-0027	Efflux time (4 mm DIN/20° C): 48 seconds
	Q14G	Q14G-0022	• Durable finish for wood & more • Water repellent and stain resistant • New and restored surfaces

Item	Company	Product	Product Unique Feature
	Q14G	Q14G-0025	• Liquid wax treatment • Light honey hue • Solvent-free • Child safe Available Colors:Clear
	Q14G	Q14G-0038	pH = 8.3 approx.
	Q14G	Q14G-0040	Has a pH of 8
	XB9O	XB9O-0013	This product is packaged in a convenient 16 oz. recyclable plastic bottle, won't leave that filmy residue, and is formulated with a natural citrus ingredient, sodium citrate, to soften even the hardest water. It Leaves just the right amount of lemon oil b
	YJ3R	YJ3R-0014	Fume-free, made with nature's elite cleaner--soy! This squeeze 'n mop deodorizing cleaner can handle a wide variety of hard floor surfaces: linoleum and vinyl flooring, sealed wood flooring, ceramic and tile, natural stone.
	YJ3R	YJ3R-0033	Can handle any size job, fragrance free deodorizer.
	X113	X113-0016	Made from an emulsion of Carnauba wax and coconut soap. It should be applied directly to the floor surface, allowed to dry for 30 to 60 minutes, then buffed lightly with a dry mop. If desired, the product can also be added to wa
	X113	X113-0018	Our floor soap is made from a mixture of precious plant soaps containing soy and palm oil. It also contains fats for surface revival, and resins that will aid in the protection of floors. Just four ounces per gallon and a damp-mopping on a regular basis i
	X113	X113-0023	
	RQCF	RQCF-0001	Highly concentrated, use as little as 2-3% mixed with water.
	Y197	Y197-0001	Ø Non-staining Ø Strong solvency action Ø Water rinseable/water dispersible Ø Flexible operating parameters Ø Environmentally compatible Ø Operator friendly
	Y197	Y197-0002	Ø Non-staining Ø Strong solvency action Ø Water rinseable/water dispersible Ø Flexible operating parameters Ø Environmentally compatible Ø Operator friendly
	TPHG	TPHG-0030	The easy to use trigger sprayer allows you to use the product without having to mix and mop. It is free rinsing which means you do not have to use water to rinse the product off when finished.
	K4U8	K4U8-0006	Environmentally Friendly User Safe Plant-Based Ingredients
	L1YM	L1YM-0008	-plant based ingredients -quick and complete biodegradability (OECD-test 301F, full product) - minimum impact on aquatic life (OECD-test 201 & 202, full product) -no animal testing - approved by the Vegan Society
	Q43V	Q43V-0010	Great for no-wax and ceramic floors. No rinsing necessary. How easy is that?
	Y8EG	Y8EG-0013	Helps maintain dust-free floors using an environmentally safe process.

Item	Company	Product	Product Unique Feature
	UGG2	UGG2-0001	Protective barrier left after scrubbing protects against surface degradation and offers an attractive shine
	VCX1	VCX1-0002	It is ideal for resilient tile, sealed or painted wood, and masonry surfaces in a wide variety of facilities including schools, offices, churches, hotels, retail outl
	X4H4	X4H4-0001	Our breakthrough formula is a natural, emulsified blend that utilizes only vegetable derived cleaning agents along with essential oils.
	X4H4	X4H4-0002	Earth Friendly, Kid Safe, Pet Safe
	GO8F	GO8F-0005	Provides a protective shine that helps to preserve and protect the floor between cleanings.
	W7UT	W7UT-0004	Linseed oil, beeswax, carnauba wax, orange oil, Isoaliphates and Dammar resin.
	OT17	OT17-0027	This no-wax formula contains gentle, cleansing conditioner that brings your wood back to life without leaving residue or buildup. And, it leaves a fresh almond scent in its wake. And that's good for wood.
	CZ8C	CZ8C-0003	* Clean & Free is soy-based - nature's versatile, renewable harvest. Clean & Free is tough on dirty floors, but easy on your health. Clean & Free is a fast drying no rinse formula with no dangerous or noxious odors. Clean & Free contains no ammonia, fragr
	CC3Z	CC3Z-0002	Contains linseed oil and conditions while it cleans
	CC3Z	CC3Z-0009	Contains pure pine oil for powerful cleaning, deodorizes and is germicidal
	I61E	I61E-0004	Contains no phosphates, ammonia, butyl ethers or chlorine bleach, no Colorings or Dyes, 100% Biodegradable, no Synthetic Fragrances only Pure Essential Oils, great for Chemically Sensitive People
	TE42	TE42-0005	Contains a blend of natural citrus extracts with penetrating and wetting agents. Non-caustic, non-corrosive and generates no heat, making it safe on all metal pipes. Emits no noxious or toxic fumes.
	PZA8	PZA8-0003	Very easy to apply by brush or spray gun, to be buffed after short drying time, allows surface to 'breathe'. No static build-up.
	PZA8	PZA8-0008	Cleaner for soiled wax treated surfaces.
	PZA8	PZA8-0009	Leaves a protective coating after cleaning
	H35A	H35A-0002	Works on surfaces from tile to wood and can be sprinkled on carpets
	H35A	H35A-0007	The vinegar cleans with disinfecting power, while it polishes and moisturizes.
	R3ST	R3ST-0003	It is non-caustic, non-acid and safer to use than other industrial cleaners commonly used.
Hair Care Products	WAMQ	WAMQ-0006	A deep cleanser that removes the most difficult soilers from the hands, body, and hair.
